## Program Description

### Overview

With this solicitation, NIJ seeks proposals for rigorous research and evaluation projects to support the development of objective and independent knowledge and validated tools to reduce violence against women (VAW) (including violence against elderly women and American Indian and Alaska Native women and girls<sup>(1)</sup>), promote justice for victims of crime, and enhance criminal justice responses. For that reason, this solicitation seeks applications for grant funding to conduct research and evaluation projects examining a broad range of topics, including the crimes of domestic and family violence, homicide, intimate partner and dating violence, rape, sexual assault, stalking, and sex trafficking, along with the associated criminal justice system response, procedures, and policies.

In Fiscal Year (FY) 2021, NIJ is interested in research responding to the following two priority areas: 1) evaluation research on VAW programs, models, practices and 2) VAW research.

**Letter of Intent:** Applicants are encouraged to submit a letter of intent to apply to [NIJFY 2021VAW.Research@ojp.usdoj.gov](mailto:NIJFY2021VAW.Research@ojp.usdoj.gov) by March 8, 2021. Submitting a letter of intent will not obligate a potential applicant to apply. Applicants who do not provide a letter of intent can still apply. (See Letter of Intent)

Applications proposing research involving partnerships with criminal justice or other agencies, should include a strong letter of support, signed by an appropriate decision-making authority from each proposed partnering agency. A letter of support should include the partnering agency's acknowledgement that the grant recipient will archive de-identified data derived from, provided to, or obtained through this project with the National Archive of Criminal Justice Data (NACJD) at the conclusion of the award. Applicants and their potential partners are encouraged to review the NACJD's policies and protections at [NACJD](#). If selected for an award, grantees will be expected to have a formal agreement in place with partnering agencies by January 1, 2022. That formal agreement must include a provision to meet the data archiving requirements of the award.

In the case of partnerships that will involve the use of federal award funds by multiple partnering agencies to carry out the proposed project, only one entity/partnering agency may be the applicant (as is the case with any application submitted in response to this solicitation); any others must be proposed as subrecipients.

This solicitation supports DOJ Strategic Objective 3.1: Combat violent crime, promote safe communities, and uphold the rights of victims of crime.

### Statutory Authority

Title I of the Omnibus Crime Control and Safe Streets Act of 1968 (sections 201 and 202).

### Specific Information

NIJ's Violence Against Women and Family Violence Research and Evaluation Program seeks to promote women and family members' safety and increase the efficiency and effectiveness of the criminal justice system's response to such crimes. The program's key objectives include estimating the scope of the problem, identifying causes and consequences, evaluating promising prevention and intervention programs, compiling and disseminating research findings, and partnering to promote and facilitate collaboration, coordination, and cooperation among a wide variety of disciplines. A broad range of topics is covered under this program that touches on a wide variety of public health and safety topics as well as criminal justice challenges, including the availability of legal and victim support services, the effectiveness of prevention and intervention programs, and the impact of such crimes over time.

NIJ is particularly interested in studies involving longitudinal research, survey/instrumentation/measure/scale validation, and studies that include advanced statistical modeling, applied policy analysis, interdisciplinary research teams, and researcher-practitioner partnerships. In addition to welcoming original research, NIJ welcomes proposals to replicate seminal studies in the field. NIJ has a particular interest in supporting replication studies. Replication studies are vital for building scientific evidence about what works. They test the validity of previous research findings and enable questions concerning generalization across populations or contexts. When studies are replicated and achieve the same or similar results as the original study, it gives greater validity to the findings. Conversely, when they achieve dissimilar results they call into question the validity of the findings of the original study. Strong replication studies are highly relevant, enhance the generalizability of the original study, and produce data of a comparable or higher quality than the data from the original study. An important contribution to the field would be to subject one of the programs in the NIJ-sponsored *CrimeSolutions* repository of scientific evaluations that is rated as "promising" or "effective" based on less-rigorous quasi-experimental research designs, and subject them to a more rigorous RCT to see if the program still produces the intended effects.

#### Priority Area 1: Evaluation Research on Violence Against Women (VAW) Programs<sup>[2]</sup>

NIJ is soliciting proposals under this category that examine programs or interventions aimed at enhancing law enforcement, prosecutorial, and judicial responses to dating and intimate partner violence, domestic and family violence, sexual violence, and stalking, as well as programs or interventions aimed at improving victim engagement with the criminal justice system. Applicants should provide detailed information on how they will accomplish all tasks, including a multidisciplinary evaluation team, if applicable, and demonstrate clear support from related partners.

Under this category, several types of evaluations can be conducted (e.g., formative, process/implementation, outcome, impact). Because not all VAW service programs may be at the stage of outcome or impact evaluation readiness, applicants may adopt a phased approach to ensure rigorous evaluation designs.

Under a phased approach, an applicant may initially propose a range of formative and/or process evaluation activities such as:

- Descriptive research of service program(s) leading to the development of a logic model(s).
- Evaluability assessments and research capacity assessments of programs to be

studied, including, but not limited to, access to data and samples, consent procedures, and agency burden.

- Development of implementation guide(s) for specific program(s).
- Development of instruments or measures to test the fidelity of programs.
- Description of the process used to design and implement the program.
- Description of program operations, including any changes in the program.
- Identification and description of intervening events that may have affected implementation and outcomes.
- Structured observations, questionnaires, semi-structured interviews, focus groups, and logs.

If successful, awards recipients may be encouraged or invited to submit a subsequent application for further evaluation research to build upon its findings from earlier phases. Subsequent phases may include outcome and impact evaluations of the specified program(s) or model(s). Future evaluation opportunities out of the phased approach may also include support for replication studies of programs or models. The specifics of the additional phases will be dependent on the findings of each phase of evaluation and other factors, including, but not limited to, the availability of appropriations.

In cases where programs have achieved a suitable level of development, NIJ encourages applicants to propose rigorous outcome or impact evaluations, using randomized evaluation designs where it is possible and appropriate to do so. If that is not possible or appropriate, applicants should propose the most rigorous and appropriate design to produce high-quality causal evidence and provide justification for not proposing a more rigorous design.

Randomized controlled trial (RCT) studies are a powerful, much-needed tool for building scientific evidence about what works. Therefore, NIJ will give studies employing RCT methods to assess the effectiveness of programs and practices higher priority consideration. RCT applications with strong designs measuring outcomes of self-evident policy importance are strongly encouraged. A strong RCT design should include measures to ensure low sample attrition, sufficient sample size, close adherence to random assignment, valid outcome measures, and statistical analyses. Applicants may want to consider studies using privacy-protected administrative data collected by others or implement an intervention into a program already funded, as this approach may lower overall study costs.

For applications proposing outcome or impact evaluations, NIJ will only fund projects that evaluate well-developed programs. Applications should include and append supplementary materials as necessary to describe the level of program development. Supplemental materials may include copies or links to logic models, program guides and materials, policies and procedures, manuals, prior evaluation findings, program staffing, and funding information. *Note: funding under this solicitation may include reasonable costs incurred by program personnel to support activities directly and exclusively required for the execution of the evaluation (e.g., manual extraction of administrative records).*

## Priority Area 2: Research on VAW

NIJ is soliciting VAW research proposals that examine:

- The reporting, investigation, and prosecution of cases involving domestic and family violence (including violence against elderly women), intimate partner and dating violence, sexual violence, and stalking. Areas of interest include, but are not limited to, case flow and attrition, decision-making, training, caseload and workload management, closure rates and characteristics, and the use and impact of technology. This includes the use of technology for both investigative and forensic purposes, as well as caseload and workload management and evidence tracking. NIJ is particularly interested in the impact and consequences of laws and policies mandating evidence tracking and submission, testing, and retention of sexual assault kits, and coordination with criminal justice systems and community-based entities.
- Law enforcement and prosecution victim-centric and trauma-informed policies, procedures, protocols, and training as it pertains to violence against women crimes. This includes, but is not limited to, policies, procedures, protocols, and training regarding forensic evidence identification, collection, documentation, examination, and presentation. NIJ is also interested in understanding policies, procedures, protocols and training as it regards the use, or non-use, of body-worn cameras in responding to these crimes and interviewing victims.
- The frequency, nature, and causes of homicide.<sup>[3]</sup> NIJ encourages applicants to focus on in-depth contextual characteristics of female homicide cases (e.g., demographic information about the individuals involved, incident characteristics, situational contexts associated with these cases). Of particular importance are analyses that provide the distribution on a demographic and geographic basis (e.g., national, state, regional, county, reservation/non-reservation).
- Research on the impact of the COVID–19 pandemic on VAW to include women's experiences of violence and their access to and use of relevant services. Areas of interest include research examining programming during times of widespread instability and anxiety; ethical and safe use of remote data collection; support services for survivors under restrictive regulatory environments; and lessons learned (e.g., about the nature of VAW and potential for future crime reduction) and innovations that occurred as a result of the pandemic. Under this area, research studies can be either standalone projects or a component of a larger project already funded and underway.
- The use of technology to protect or deliver services to victims of domestic and family violence, intimate partner violence, sexual assault, and stalking. NIJ's particular interests are location-based technologies, artificial intelligence, machine learning techniques, and the application of big data<sup>[4]</sup> to understand patterns and trends across large populations or time periods.

Proposals for research on topics other than those listed above will not be entertained.

### **New Investigator/Early Career Opportunity**

NIJ is interested in supporting researchers who are early in their careers and new to NIJ's research grant portfolios, specifically non-tenured assistant professors, or equivalent full-time staff scientist positions in a research institution, who propose research on topics relevant to NIJ's Office of Research, Evaluation and Technology (ORET). To that end, NIJ may give, in appropriate circumstances, special consideration in award decisions to applications proposing such researchers as principal investigators. To qualify, the proposed principal investigator (PI) must at the time of application submission:

- Hold a non-tenured assistant professor appointment at an accredited institution of higher education in the United States or an equivalent full-time staff scientist position at a research institution in the United States.
- Have completed a terminal degree or post-graduate clinical training within the four (4) years before September 30, 2021.
- Have never previously received NIJ funding as a PI on a research project except for Graduate Research Fellows or Data Resources Program grantees.

If seeking to be consideration for the New Investigator/Early Career Opportunity, the applicant should identify that they are submitting a New Investigator/Early Career proposal on the title page of the application.

## **Goals, Objectives, Deliverables, and Timeline**

### **Goals**

The ultimate goal of this solicitation is to inform formulation of strategies and practices to reduce VAW.

### **Objectives**

This solicitation seeks to support the rigorous development of objective and independent knowledge and validated tools, and to disseminate them to stakeholders and policymakers to inform formulation of strategies and practices to reduce VAW.

### **Deliverables**

Final Research Report. Any recipient of an award under this solicitation will be expected to submit a final research report. Additional information on the final research report requirement for the solicitation is posted on NIJ's webpage.

Required Data Sets and Associated Files and Documentation. Any recipient of an award under this solicitation will be expected to submit to the National Archive of Criminal Justice Data (NACJD) all data sets that result in whole or in part from the work funded by the award, along with associated files and any documentation necessary for future efforts by others to reproduce the project's findings and/or to extend the scientific value of the data set through secondary analysis.

In addition to these deliverables (and the required reports and data on performance measures), NIJ expects scholarly products to result from each award under this solicitation, taking the form of one or more published, peer-reviewed, scientific journal articles, and/or (if appropriate) law review journal articles, book chapter(s) or book(s) in the academic press, technological prototypes, patented inventions, or similar scientific products. NIJ expects that there will be an equal effort to make the research findings accessible to practitioner and policymaker audiences.

The Goals, Objectives, and Deliverables are directly related to the performance measures that demonstrate the results of the work completed, as discussed under Application and Submission Information.

## OJP Policy Priority Areas

In FY 2021 and in addition to executing any program-specific prioritization that may be applicable, OJP will give priority consideration to applications as follows:

- Applications that address specific challenges that rural communities face.
- Applications that demonstrate that the individuals who are intended to benefit from the requested grant reside in high-poverty areas or persistent-poverty counties.
- Applications that offer enhancements to public safety in economically distressed communities (Qualified Opportunity Zones).

To receive priority consideration under the rural priority, applicants must describe what makes the geographic service area rural (using U.S. Census or other appropriate government data; for assistance, applicants may wish to refer to <https://www.census.gov/programs-surveys/geography/guidance/geo-areas/urban-rural.html>), how isolated the area is from needed services, and how they will address specific challenges in rural communities.

To receive priority consideration under the poverty priority, the applicant must provide information to demonstrate that the individuals who are intended to benefit from the requested grant reside in high-poverty areas or persistent poverty counties. For purposes of this priority consideration, the term “high-poverty area” means any census tract with a poverty rate of at least 20 percent as measured by the 2013–2017 5-year data series available from the American Community Survey of the Census Bureau (applicants may search by census tract at <https://www.census.gov/acs/www/data/data-tables-and-tools/narrative-profiles/2017/>) and the term “persistent poverty counties” means any county that has had 20 percent or more of its population living in poverty over the past 30 years, as measured by the 1990 and 2000 decennial censuses and the most recent Small Area Income and Poverty Estimates (applicants may search by county at <https://www.census.gov/data/tables/time-series/dec/census-poverty.html> and at <https://www.census.gov/programs-surveys/saipe.html>).

To receive priority consideration under the Qualified Opportunity Zones priority, applicants must include information that specifies how the project will enhance public safety in the specified QOZs. For resources on QOZs, and for a current list of designated QOZs, see the U.S. Department of the Treasury’s resource webpage, accessible at <https://www.cdfifund.gov/pages/opportunity-zones.aspx>.

OJP policy priority consideration will consist of receiving additional points in the application scoring process. Receipt of priority consideration does not guarantee that an application will be funded; nor will the failure to receive priority consideration necessarily mean that an application will not be funded.

## **Federal Award Information**

### **Awards, Amounts and Durations**

#### **Anticipated Number of Awards**

6

#### **Anticipated Maximum Dollar Amount of Awards**

\$600,000.00

#### **Period of Performance Start Date**

1/1/22 12:00 AM

#### **Period of Performance Duration (Months)**

60

#### **Anticipated Total Amount to be Awarded Under Solicitation**

\$2,500,000.00

### **Additional Information**

Maximum dollar amount for each award: The recent median NIJ grant award amount is approximately \$600,000. Applicants are encouraged to propose budgets that match the research activities proposed, which may be more or less than the anticipated maximum dollar amount of awards.

### **Continuation Funding Intent**

In certain cases, NIJ may provide additional funding in future years to awards made under this solicitation through continuation awards. NIJ will consider, among other factors, NIJ's strategic priorities, a recipient's overall management of the award, and progress of award-funded work, when making continuation-award decisions.

### **Availability of Funds**

All awards are subject to the availability of appropriated funds and to any modifications or additional requirements that may be imposed by law.

### **Types of Awards**

NIJ expects to make awards under this solicitation as grants. See the "Administrative, National Policy, and Other Legal Requirements" section of the [OJP Grant Application Resource Guide](#) for a brief discussion of important statutes, regulations, and award conditions that apply to many (or in some cases, all) OJP grants (and cooperative agreements).

### **Financial Management and System of Internal Controls**

Award recipients and subrecipients (including recipients or subrecipients that are pass-through entities) must, as described in the Part 200 Uniform Requirements as set out at 2 C.F.R. 200.303, comply with standards for financial and program management. The "Part 200 Uniform Requirements" means the DOJ regulation at 2 C.F.R. ~~part 2800, which adopts (with certain~~ modifications) the provisions of 2 C.F.R. Part 200. See [OJP Grant Application Resource Guide](#) for additional information.

## **Budget Information**

If the applicant is proposing a project that reasonably could be conducted in discrete phases, with each phase resulting in completion of one or more significant, defined milestones, then NIJ strongly recommends that the applicant structure the application — specifically including the narrative, expected scholarly products, timelines/milestones, and budget detail worksheet and budget narrative — to clearly define each phase. (This is particularly the case if the applicant proposes a project that will exceed — in cost or the length of the period of performance — the amount or length of time anticipated for an individual award (or awards) under this solicitation.) Given limitations on the availability to NIJ of funds for awards for research, development, and evaluation, this information will assist NIJ in considering whether partial funding of applications would be productive. (If, in FY 2021, NIJ elects to fund only certain phases of a proposed project, the expected scholarly products from the partial-funding award may, in some cases, vary from those described above.)

NIJ may elect to fund applications submitted under this FY 2021 solicitation in future fiscal years, dependent on, among other considerations, the merit of the applications and on the availability of appropriations.

What will not be funded:

- Applications primarily to purchase equipment, materials, or supplies. (A budget may include these items if they are necessary to conduct research, development, demonstration, evaluation, or analysis.)
- Applications that are not responsive to the purposes of this specific solicitation.
- Programs or services unrelated to the scope of the research project or existing programs or services being evaluated.
- Training in support of programs or direct services unrelated to or associated with the proposed research project.
- Applications involving tribal governments or being conducted on tribal lands that do not have an executed tribal resolution, executive order, or letter of commitment from the tribal authorized representative (e.g., tribal council, tribal administrator, executive director) sanctioning the partnership/project.

## **Cost Sharing or Matching Requirement**

See “Cofunding” paragraph under item 5 (“Budget and Associated Documentation”) under “Content of Application Submission” in Application and Submission Information.

## **Pre-agreement Costs (also known as Pre-award Costs)**

See the [OJP Grant Application Resource Guide](#) information on Pre-agreement Costs (also known as Pre-award Costs).

## **Waiver**

See the [OJP Grant Application Resource Guide](#) information on Limitation on Use of Award Funds for Employee Compensation; Waiver.

## **Prior Approval, Planning, and Reporting of Conference/Meeting/Training Costs**

See the [OJP Grant Application Resource Guide](#) for information on Prior Approval, Planning, and Reporting of Conference/Meeting/Training Costs.

## **Costs Associated with Language Assistance (if applicable)**

See the [OJP Grant Application Resource Guide](#) for information on Costs Associated with Language Assistance.

## **Period of Performance Duration**

To be determined by the period of performance of awarded applications. Successful applicants will be expected to complete the work proposed within a five-year period of performance.

## **Additional Information**

NIJ may share application information and peer review outcomes with the U.S. Department of Justice's Office on Violence Against Women (OVW). NIJ and OVW will consider program scope, current priorities, and availability of funds in making final funding decisions. If an application fares well in peer review, but cannot be funded this year by NIJ, and the application aligns closely with OVW's current priorities, NIJ may give OVW the option of funding it. If OVW elects to fund an application initially submitted under this solicitation, the applicant will be contacted before an award is made to give the applicant the option of accepting or declining funding from a source other than the one to which the applicant applied.

## **Eligibility Information**

For additional eligibility information, see the title page.

For information on cost sharing or match requirements, see "Content of Application Submission" in Application and Submission Information.

The letter should be addressed to the NIJ Director using the following address: National Institute of Justice, 810 Seventh Street, NW, Washington, DC 20531 (Overnight 20001). A letter does not obligate the applicant to apply. For a sample letter of intent, see <https://www.ju.stice.gov/ovw/page/file/1107796/download>.

## Content of Application Submission

The following application elements MUST be included in the application submission for an application to meet the basic minimum requirements (BMR) to advance to peer review and receive consideration for funding:

- Proposal Narrative.
- Budget Worksheet and Budget Narrative (Web-based form).
- Curriculum Vitae/Resumes for Key Personnel. (Curriculum Vitae for key personnel (For purposes of this solicitation, “key personnel” means the principal investigator, and any and all co-principal investigators.)

See the “[Application Elements and Formatting Instructions](#)” section of the [OJP Grant Application Resource Guide](#) for information on what happens to an application that does not contain all the specified elements or that is nonresponsive to the scope of the solicitation.

## Information to Complete the Application for Federal Assistance (SF-424)

The SF-424 will be submitted in Grants.gov. The SF-424 is a required standard form used as a cover sheet for submission of pre-applications, applications, and related information. See the [OJP Grant Application Resource Guide](#) for additional information on completing the SF-424.

Intergovernmental Review: This solicitation (“funding opportunity”) is not subject to [Exe cutive Order 12372](#). (In completing the SF-424, an applicant is to answer question 19 by selecting the response that the “Program is not covered by E.O. 12372.”)

## Standard Applicant Information (JustGrants 424 and General Agency Information)

The Standard Applicant Information section of the JustGrants application is pre-populated with the SF-424 data submitted in Grants.gov. Applicants will need to review the Standard Applicant Information in JustGrants and make edits as needed. Within this section, applicants will need to: add zip codes for areas affected by the project; confirm their Authorized Representative; and verify the organization’s legal name and address.

## Proposal Abstract

A proposal abstract (no more than 400 words) summarizing the proposed project including primary activities, products and deliverables, the service area, and who will benefit from the proposed

project, will be completed in the JustGrants Web-based form.

## **Proposal Narrative**

The proposal narrative should be submitted as an attachment in JustGrants. The attached document should be double-spaced, using a standard 12-point Times New Roman font; have no less than 1-inch margins; and should not exceed 30 pages. Pages should be numbered and submitted as an attachment. If the program narrative fails to comply with these length-related restrictions, NIJ may negatively consider such noncompliance in peer review and in final award decisions.

The following sections must be included as part of the proposal narrative:

a. Title Page (not counted against the proposal narrative page limit)

The title page should include:

- Project title.
- Submission date.
- Funding opportunity number.
- Principal Investigator (and any co-principal investigators).
- Unique author identifier (e.g., ORCID, ResearcherID, Scopus Author ID), if available.
- Requests for consideration under “new investigator” and/or “priority areas of research” areas.
- Key words, including science focus areas.
- Contact information (that is, name, address, telephone number, and e-mail address) for both the applicant and the principal investigator.

b. Resubmit Response (if applicable) (not counted against the program narrative page limit.)

If an applicant is resubmitting an application presented previously to NIJ, but not funded, the applicant should indicate this. A statement should be provided, no more than two pages, addressing: (1) the title, submission date, and NIJ-assigned application number of the previous application, and (2) a brief summary of revisions to the application, including responses to previous feedback received from NIJ.

c. Table of Contents and Figures (not counted against the program narrative page limit)

d. Main Body

1. Statement of the Problem.

The statement of the problem should address the need for research in this area. Applicants should discuss current gaps in data, research, and knowledge, including those for particular justice sectors, for certain populations, and to answer questions relevant to current policy and practice needs and public interests. It is not uncommon for multiple problems to exist simultaneously (for example, there may be a criminal justice problem affecting public safety, a current technical challenge/need identified by forensic practitioners, as well as a scientific/technology gap between the current state of the art and a desired

solution) and applicants should discuss each of these clearly and justify the importance of the separate issues. As part of this discussion, applicants should present a review of previous literature and discuss previous research related to these problems.

## 2. Project Design and Implementation.

Applicants should provide a detailed description of the strategies to implement this research project and address the research questions. Design elements should follow directly from the research project's goals and objectives and address the program-specific information noted in the solicitation. Applicants should describe the research methodology and analysis plan in detail and demonstrate the validity and usefulness of the data they will collect. Applicants should consider the rigor and soundness of the methodology and analytical and technical approaches for the proposed research and address the feasibility of the proposed project and potential challenges or problems in carrying out the activities.

## 3. Potential Impact.

Applicants should describe the potential impact of the research and how it may inform or improve criminal or juvenile justice-related policy, practice, or theory in the United States. The applicant should include a discussion of the proposed dissemination plan to produce scholarly products and to make information available to broader interested audiences, such as criminal justice practitioners or policymakers.

## 4. Capabilities and Competencies.

This section should describe the experience and capability of the applicant organization, key staff, and any proposed subgrantees (including consultants) that the applicant will use to implement and manage this effort and the federal funds under this award, highlighting any previous experience implementing projects of similar scope, design, and magnitude. Applicants should address:

- Experience and capacity to work with the proposed data sources in the conduct of similar research efforts.
- Experience and capacity to design and implement rigorous research and data analysis projects.
- Experience producing and disseminating meaningful deliverables.

Applicants should also outline the management plan and organization that connects to the goals and objectives of the project.

## 5. Appendices (not counted against the program narrative page limit) include:

- If the application (including the budget) identifies any proposed non-competitive agreements that are or may be considered procurement "contracts" (rather than subawards), for purposes of federal grants administrative requirements, the applicant also must list the entities with which the applicant proposes to contract.

- List of other agencies, organizations, or funding sources to which this application has been submitted (if applicable).

Note: applicants are not required to submit performance data with the application. Rather, performance measures information is included as an alert that successful applicants will be required to submit performance data as part of the reporting requirements under an award.

OJP will require each successful applicant to submit regular performance data that demonstrate the results of the work carried out under the award. The performance data directly relate to the goals, objectives, and deliverables identified under “Goals, Objectives, and Deliverables” on page 10.

A list of performance measure questions for this program can be found on page 27.

Applicants can also visit OJP’s performance measurement page at [www.ojp.gov/performance](http://www.ojp.gov/performance) for an overview of performance measurement activities at OJP.

Award recipients will be required to submit performance measure data in quarterly financial reports, semi-annual progress reports, and the Final Research Report. Further guidance on the post-award submission process will be provided, if selected for award.

### **Goals, Objectives, Deliverables, and Timeline**

Applicants will submit the project’s goals, objectives, deliverables, and timelines in the JustGrants Web-based form. See the [OJP Grant Application Resource Guide](#) for additional information.

### **Budget and Associated Documentation**

#### **Budget Worksheet and Budget Narrative (Web-based Form)**

Applicants will complete the JustGrants web-based budget form. See the [OJP Grant Application Resource Guide](#) for additional information.

The following paragraph (on “Cofunding”) expressly modifies the “Cost Sharing or Matching Requirement” provisions in the OJP Grant Application Resource Guide. The applicant is to follow the guidance in the following paragraph instead of the guidance stated under the “Cost Sharing or Matching Requirement” heading in the OJP Grant Application Resource Guide.

**Cofunding:** An award made by NIJ under this solicitation may account for up to 100 percent of the total cost of the project. The application should indicate whether it is feasible for the applicant to contribute cash, facilities, or services as non-federal support for the project. The application should identify generally any such contributions that the applicant expects to make and the proposed budget should indicate in detail which items, if any, will be supported with non-federal contributions.

For additional match information, see the “Cost Sharing or Match Requirement” section under Federal Award Information.

If a successful application proposes a voluntary match amount, and OJP approves the budget, the total match amount incorporated into the approved budget becomes mandatory and subject to audit.

### **Tribal Authorizing Resolution**

If applicable, applicants will submit the Tribal Authorizing Resolution by uploading the resolution as an attachment in JustGrants. ### **Documentation of Rural Challenges (if applicable)**

As is mentioned above, OJP will give priority consideration in award decisions to applications that address specific challenges that rural communities face. Each applicant proposing to receive priority consideration under the rural priority must provide a sufficient narrative to include what makes the geographic service area rural (using U.S. Census or other appropriate government data), how isolated the area is from needed services, and how it will address specific challenges in rural communities. Applicants will submit the narrative by uploading the document as an attachment in JustGrants.

### **Documentation of High-Poverty Areas or Persistent-Poverty Counties (if applicable)**

The narrative and the list of affected QOZs (by census tract number) must be included as an attachment that is clearly labeled as addressing QOZs. The applicant may also include tables, charts, graphs, or other relevant illustrations that may be useful in comprehending the manner in which the proposed project is anticipated to benefit a QOZ(s). Applicants will submit the narrative by uploading the document as an attachment in JustGrants.

## Review Process

Applications submitted under this solicitation that meet basic minimum requirements, will be evaluated for technical merit by a peer review panel(s) in accordance with OJP peer review policy and procedures using the stated review criteria above.

OJP screens applications to ensure they meet the basic minimum requirements prior to conducting peer review. Although specific requirements may vary, the following are common requirements applicable to all solicitations for funding under OJP programs:

- The application must be submitted by an eligible type of applicant.
- The application must request funding within programmatic funding constraints (if applicable).
- The application must be responsive to the scope of the solicitation.
- The application must include all items necessary to meet the basic minimum requirements.
- The application, if submitted by an applicant that is a DOJ High Risk Grantee, or is designated "high risk" by a federal grant-making agency outside of DOJ, must not have been determined by the NIJ Director to pose a substantial risk of program implementation failure, based on 1) the applicant's lack of sufficient progress in addressing required corrective actions necessary for removal of the DOJ High Risk Grantee (or non-DOJ high risk) designation, 2) the nature and severity of the issues leading to or accompanying the DOJ High Risk Grantee (or non-DOJ high risk) designation, and/or 3) the applicant's expected ability to manage grant funds and achieve grant goals and objectives.

Pursuant to the Part 200 Uniform Requirements, before award decisions are made, OJP also reviews information related to the degree of risk posed by the applicant. Among other things to help assess whether an applicant that has one or more prior federal awards has a satisfactory record with respect to performance, integrity, and business ethics, OJP checks whether the applicant is listed in SAM as excluded from receiving a federal award.

In addition, if OJP anticipates that an award will exceed \$250,000 in federal funds, OJP also must review and consider any information about the applicant that appears in the non-public segment of the integrity and performance system accessible through SAM (currently, the Federal Awardee Performance and Integrity Information System, FAPIIS).

**Important note on FAPIIS:** An applicant, may review and comment on any information about itself that currently appears in FAPIIS and was entered by a federal awarding agency. OJP will consider any such comments by the applicant, in addition to the other information in FAPIIS, in its assessment of the risk posed by the applicant.

All final award decisions will be made by Director of the National Institute of Justice, who may take into account not only peer review ratings and NIJ recommendations, but also other factors as indicated in this section.

## Endnotes

[1] Applications involving tribal governments and/or being conducted on tribal sovereign lands must have an executed tribal resolution or executive order from the tribal authorized representative (i.e., tribal council/government) sanctioning the partnership and the project. Tribal partnerships with program staff of government agencies or programs directed and administered by tribal governments require approval from the government body. Similarly, applications involving tribally based organizations (a non-governmental organization such as a tribal nonprofit establishment) must have a letter of commitment from the tribal organization's authorized legal representative (i.e., administrator, executive director) authorizing the partnership and the project.

[2] Under this priority area, the term "program" encompasses models, practices, and programs that exist in the victim services and criminal justice arena. Applicants may propose evaluation research of specific victim service organizations, victim service delivery models, and/or victim service interventions.

~~[3] Applications for funding of basic research activities that focus on domestic mass shootings (e.g., familicide) should submit proposals to NIJ's FY2021 notice of funding opportunity titled "Research and Evaluation on Firearms Violence and Mass Shootings" that designates this topic a priority area.~~

[4] Big data may be characterized by scale, detail, routineness, immediacy, and uniqueness, and could include linking variables using common fields (See Lipworth, W., Mason, P.H., Kerridge, I. et al. 2017. Ethics and Epistemology in Big Data Research. *Bioethical Inquiry*, 14: 489-500. <https://doi.org/10.1007/s11673-017-9771-3>). For example, performance management and administrative data could be used to understand the delivery of services to victims and survivors. It can also be used to examine the outcomes and impacts of various interventions employed to address VAW. NIJ is soliciting studies that rely solely on big data or incorporate big data as part of a multimethod approach.
