NIJ FY22 National Juvenile Justice Data Analysis Program

Overview
The U.S. Department of Justice (DOJ), Office of Justice Programs (OJP), National Institute of Justice (NIJ), is seeking applications for funding to support and enhance the National Juvenile Justice Data Analysis Program (NJJDAP) through the assembly of juvenile justice-related datasets; innovative analysis of, and reports on, complex data and issues; and dissemination strategies through publications and online resources that advance the relevance, utility, and accessibility of national juvenile justice data for the juvenile justice community and the public. This program furthers the DOJ’s mission by supporting the development of new knowledge and tools to address the challenges of crime and justice in the United States.

This solicitation incorporates the OJP Grant Application Resource Guide by reference. The OJP Grant Application Resource Guide provides guidance to applicants for the preparation and submission to OJP of applications for funding. If this solicitation expressly modifies any provision in the OJP Grant Application Resource Guide, the applicant is to follow the guidelines in this solicitation as to that provision.

Other
For purposes of this solicitation, “state” means any state of the United States, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, Guam, American Samoa, and the Commonwealth of the Northern Mariana Islands.

To advance Executive Order 13929 Safe Policing for Safe Communities, the Attorney General determined that all state, local, and university or college law enforcement agencies must be certified by an approved independent credentialing body or have started the certification process, to be eligible for FY 2022 DOJ discretionary grant funding. To become certified, the law enforcement agency must meet two mandatory conditions: (1) the agency’s use-of-force policies adhere to all applicable federal, state, and local laws and (2) the agency’s use-of-force
policies prohibit chokeholds except in situations where use of deadly force is allowed by law. The certification requirement also applies to law enforcement agencies receiving DOJ discretionary grant funding through a subaward. For detailed information on this certification requirement, please visit https://cops.usdoj.gov/SafePolicingEO to access the Standards for Certification on Safe Policing for Safe Communities, the Implementation Fact Sheet, and the List of Designated Independent Credentialing Bodies.

Foreign governments, foreign organizations, and foreign colleges and universities are not eligible to apply. Federal agencies are eligible to apply. (Any award made to a federal agency will be made as an inter-agency reimbursable agreement.)

All recipients and subrecipients (including any for-profit organization) must forgo any profit or management fee.

NIJ will consider applications under which two or more entities would carry out the federal award; however, only one entity may be the applicant. Any others must be proposed as subrecipients (subgrantees). For additional information on subawards, see the OJP Grant Application Resource Guide.

NIJ may elect to fund applications submitted under this FY 2022 solicitation in future fiscal years, dependent on, among other considerations, the merit of the applications and the availability of appropriations.

The Grants.gov Support Hotline operates 24 hours a day, 7 days a week, except on federal holidays.

For technical assistance with submitting the full application in DOJ's Justice Grants System (JustGrants), contact the JustGrants Service Desk at 833-872-5175 or JustGrants.Support@usdoj.gov. The JustGrants Service Desk operates 5 a.m. to 9 p.m. eastern time Monday-Friday and 9 a.m. to 5 p.m. Saturday, Sunday, and Federal holidays.

For assistance with any other requirements of this solicitation, contact the OJP Response Center by telephone at 800-851-3420 or TTY: 301-240-6310 (hearing impaired only), or by email at grants@ncjrs.gov. Submission Information

Applications will be submitted to DOJ in two steps:

**Step 1:** The applicant must submit by the Grants.gov deadline the required Application for Federal Assistance standard form (SF)-424 and a Disclosure of Lobbying Activities (SF-LLL) form when they register in Grants.gov at https://www.grants.gov/web/grants/register.html.

Beginning April 4, 2022, the Federal government will cease using the Data Universal Numbering System (DUNS) number to uniquely identify entities. At that point, entities doing business with the Federal government will use a Unique Entity Identifier (UEI) created in SAM.gov. If your entity is currently registered in SAM.gov, your UEI has already been assigned and is viewable in SAM.gov. This includes inactive registrations. If you are a new entity registering in SAM.gov, you will continue to register in SAM.gov using the DUNS number assigned by Dun and Bradstreet (D&B) until April 4, 2022. Upon completing your registration in SAM.gov, you will be assigned a UEI. For additional information, see the Unique Entity Identifier Update and the OJP Grant Application Resource Guide.

**IMPORTANT:** Grants.gov will transition to UEI at 11:59 p.m. eastern time (ET) on March 31, 2022.

To support this transition, DOJ will update all posted Grants.gov funding opportunity packages to reflect the use of UEI.

All entities applying for DOJ funding opportunities that have a Grants.gov close date after March 31, 2022, must take one of the following actions:
1) Complete and submit the SF-424 and SF-LLL no later than March 30, 2022, at 8:00 p.m. ET.

   • If the SF-424 is not completed and submitted by this time, any information contained in the SF-424 will be lost during the transition.

   • If this occurs, applicants will need to re-enter their data in the new SF-424 form upon returning to Grants.gov on April 1, 2022.

2) Wait until April 1, 2022, to begin and submit the Grants.gov application.

   **Step 2:** The applicant must then submit the **full application**, including attachments, in JustGrants at JustGrants.usdoj.gov. To be considered timely, the full application must be submitted in JustGrants by the JustGrants application deadline. OJP encourages applicants to review the “How to Apply” section in the OJP Grant Application Resource Guide and the JustGrants website for more information, resources, and training.

Program Description

Overview

OJP is committed to advancing work that promotes civil rights and racial equity, increases access to justice, supports crime victims and individuals impacted by the justice system, strengthens community safety and protects the public from crime and evolving threats, and builds trust between law enforcement and the community.

With this solicitation, NIJ, in collaboration with the Office of Juvenile Justice and Delinquency Prevention (OJJDP), seeks proposals for funding to support and enhance the National Juvenile Justice Data Analysis Program (NJJDAP) through the assembly of juvenile justice-related datasets; innovative analysis of, and reports on, complex data and issues; and dissemination strategies through publications and online resources that advance the relevance, utility, and accessibility of national juvenile justice data for the juvenile justice community and the public. The NJJDAP produces vital statistical information to the field regarding juvenile risk behaviors, juvenile victimization, juvenile offending, and the juvenile justice system’s response to law-violating behavior. The successful applicant will also work collaboratively with NIJ and OJJDP to make significant advances in the way these data are analyzed and made available through new and innovative dissemination strategies and tools that facilitate access to, and use of, juvenile justice-related data to inform juvenile justice policy and practice at the federal, state, and local levels.

Among other factors in making award decisions, NIJ will consider to what degree an award will introduce new and innovative perspectives to this important area of research. NIJ will also consider how an award may broaden the pool of researchers and research entities involved in advancing the relevance, utility, and accessibility of national juvenile justice data.

Applications proposing research involving partnerships with criminal justice or other agencies should include a strong letter of support, signed by an appropriate decision-making authority from each proposed, partnering agency. A letter of support should include the partnering agency’s acknowledgement that de-identified data derived from, provided to, or obtained through this project will be archived by the grant recipient with the National Archive of Criminal Justice Data (NACJD) at the conclusion of the award. Applicants and their potential partners are encouraged to review the NACJD’s policies and protections at (NACJD). If selected for award, grantees will be expected to have a formal agreement in place with partnering agencies by January 1, 2023. That formal agreement must include a provision to meet the data archiving requirements of the award.

In the case of partnerships that will involve the use of federal award funds by multiple partnering agencies to carry out the proposed project, only one entity/partnering agency may be the applicant (as is the case with any application submitted in response to this solicitation); any others must be proposed as subrecipients.

Statutory Authority

Any awards under this solicitation would be made under statutory authority provided by a full-year appropriations act for FY 2022. As of the writing of this solicitation, the Department of Justice is operating under a short-term “Continuing Resolution”; no full-year appropriation for the Department has been enacted for FY 2022.

Specific Information

NIJ seeks applications for funding to support a central, primary resource to assess, assemble, and analyze statistical data to serve the critical information needs of the juvenile justice community and the public. The successful applicant, with substantial involvement by NIJ, will implement and enhance the existing OJJDP Statistical Briefing Book website; prepare publications, including statistical bulletins and web-based data briefs; and develop relevant, new, and innovative display options and products that facilitate access to, and use by, the public of commonly requested statistical information on juvenile justice and related issues. Applicants should clearly indicate their knowledge of and capability in three specific areas: (1) the juvenile justice system in the United States; (2) the analysis of complex data sets; and (3) the production of statistical reports and web-based products. NIJ will be particularly interested in an applicant’s familiarity with (1) current issues and trends in juvenile justice, risk and protective factors for delinquency, and the organization of the juvenile justice system; (2) data sets that can address these issues; (3) key constituents in the juvenile justice community and their information needs; and (4) analysis and dissemination strategies that meet the information needs of the juvenile justice community and foster greater use of juvenile justice-related data.
Applicants should describe their plan for the successful transition of the project between awards (i.e., learning and documenting the SBB website maintenance and update procedures, learning and documenting the SBB database structure, transferring all relevant database tables and stored procedures) and account for a transition period in their project timeline and budget. A new applicant should anticipate that a transition may occur at the beginning and end of their project period. An incumbent applicant should anticipate that a transition may occur at the end of their project period.

NIJ encourages applicants to describe their plan to seek feedback and guidance from stakeholders in the juvenile justice community on new, innovative topics, products, and data display options. NIJ also encourages applicants to seek guidance from, or partner with, other organizations to strengthen and expand their capacity to address all of the substantive, methodological, analytical, and data visualization requirements of this program. This could include, but would not be limited to, working with subrecipients to conduct data analysis activities, document data analysis procedures, and/or draft publications, data briefs, infographics, and other print and web content and tools.

NIJ will not consider proposals that fail to provide a plan to support the current OJJDP Statistical Briefing Book web content.

Goals, Objectives, Deliverables, and Timeline

Goals
The goal of this program is to analyze and disseminate comprehensive statistical information on juvenile risk behaviors, juvenile victimization and offending, and the juvenile justice system's response to law-violating behavior and related issues to facilitate greater access to and use of data by the juvenile justice community and the public.

Objectives
The primary objectives of this solicitation include the following:

- Identify and assess national data sets that collect information on juvenile and criminal justice, victimization, offending, risk factors, and related issues.
- Analyze, interpret, and publish available data on juvenile populations, their victimization, offending, and risk factors relevant to current juvenile justice policy and practice needs and public interest.
- Analyze, interpret, and publish information from OJJDP-sponsored statistical data collections, not limited to the Census of Juveniles in Residential Placement and the Juvenile Residential Facility Census.
- Analyze, interpret, and publish information on juveniles involved in the justice system from other national data collection programs (e.g., the FBI's National Incident-Based Reporting System [NIBRS]).
- Work with the OJJDP-sponsored National Juvenile Court Data Archive[1] to disseminate juvenile court data via publications and online data analysis tools, including Easy Access to Juvenile Court Statistics[2] and Easy Access to State and County Juvenile Court Case Counts.[3]
- Update and develop new content to populate the OJJDP Statistical Briefing Book and other webpages as required by NIJ and OJJDP to inform the public, with relevant and timely juvenile justice statistical information, including data tables, charts, maps, and interactive data analysis tools.[4] The successful applicant will have, or gain, familiarity with OJP's Drupal-based web content management system, which is maintained by a separate information technology vendor, and demonstrate the ability to work with a variety of analytic tools including those hosted on OJP platforms (e.g., Socrata and Tableau). The successful applicant will work closely with NIJ, OJJDP, and OJP's technology vendor to post and/or transfer all necessary files to populate statistical content on OJJDP's website. Applicants are encouraged to recommend strategies for structuring, updating, and transferring data that will increase the utility, relevancy, and timeliness of the data for the users of OJJDP's website.
- Obtain input from stakeholders in the juvenile justice community on new topics, products, or data visualizations that address unfilled information needs and develop recommendations for NIJ and OJJDP based on that input.
- Develop recommendations for NIJ and OJJDP to enhance users’ access and experiences with juvenile justice statistical information, including but not limited to the presentation of key findings, data visualizations, and other related information on topical and program area pages.

- Respond, in coordination with NIJ and OJJDP, to information requests regarding juvenile justice-related statistics and analyses from practitioners, policymakers, media, researchers, and the public.

- Work with other federal agencies and Department of Justice grantees involved in statistical data collection activities through periodic working group meetings and collaborative projects (e.g., joint analyses, presentations, and publications).

**Deliverables**

NIJ will expect the awardee to complete, at a minimum, the following deliverables:

- On an ongoing and timely basis, update and transfer data to populate all frequently asked questions (FAQs), data analysis tools, and other content presented on OJJDP’s Statistical Briefing Book website to facilitate greater access to, and use of, data by the juvenile justice community and the public. This includes reviewing all current online content; making recommendations on changes to content; and developing a detailed timeline for updates, and/or archiving of content.

- Annually develop at least one (1) new product or data visualization that addresses an unfilled information need based on input from stakeholders in the juvenile justice community.

- Annually draft at least three (3) bulletins summarizing findings from the analysis of OJJDP-sponsored statistical data collections and other related national data collection programs in a manner accessible to juvenile justice practitioners and policymakers, with specific topics to be determined post-award in consultation with NIJ and OJJDP. NIJ encourages applicants to discuss potential topics in their applications.

- Annually develop at least five (5) web-based data briefs, infographics, and/or other data visualizations that highlight key findings from OJJDP’s statistical collections that have relevance for policy and practice.

- Annually present findings from analyses of OJJDP-sponsored statistical data collections to national audiences at academic and practitioner conferences (venues to be determined in consultation with NIJ).

All publications, data briefs, infographics, and other print and web content developed under this program will be published and/or disseminated with substantial involvement by NIJ and OJJDP.

In addition to these deliverables, any recipient of an award under this solicitation will be expected to submit to the National Archive of Criminal Justice Data (NACJD) study-related documentation including, but not limited to, a user guide with information about and instructions for accessing secondary data sources analyzed for this project. This documentation, along with a description of the study, will be appear on the NACJD website to inform future efforts by others to reproduce the project’s analyses and/or extend the scientific value of the data through secondary analysis.

The Goals, Objectives, and Deliverables are directly related to the performance measures that show the completed work’s results, as discussed in the Application and Submission Information section.

Continuation Funding Intent

NIJ may, in certain cases, provide additional funding in future years to awards made under this solicitation through continuation awards. NIJ will consider, among other factors, NIJ’s strategic priorities, a recipient’s overall management of the award, and the award-funded work’s progress, when making continuation award decisions.

Availability of Funds

This solicitation, and awards (if any are made) under this solicitation, are subject to the availability of appropriated funds and to any modifications or additional requirements that may be imposed by the agency or by law. In addition, nothing in this solicitation is intended to, and does not, create any right or benefit, substantive or procedural, enforceable at law or in equity by any party against the United States, its departments, agencies, or entities, its officers, employees, or agents, or any other person.

Types of Awards

NIJ expects to make awards under this solicitation as cooperative agreements, which provide for OJP to have substantial involvement in carrying out award activities. See the “Administrative, National Policy, and Other Legal Requirements” section of the OJP Grant Application Resource Guide for additional information.

Financial Management and System of Internal Controls

Award recipients and subrecipients (including recipients or subrecipients that are pass-through entities) must, as described in the Part 200 Uniform Requirements as set out at 2 C.F.R. 200.303, comply with standards for financial and program management. See the OJP Grant Application Resource Guide for additional information.

Budget Information

If the applicant is proposing a project that reasonably could be conducted in discrete phases, with each phase resulting in completion of one or more significant, defined milestones, then NIJ strongly recommends that the applicant structure the application — specifically including the narrative, expected scholarly products, timelines/milestones, and budget worksheet and budget narrative — to clearly define each phase. (This is particularly the case if the applicant proposes a project that will exceed — in cost or the length of the period of performance — the amount or length of time anticipated for an individual award (or awards) under this solicitation.) Given limitations on the availability to NIJ of funds for awards for research, development, and evaluation, this information will assist NIJ in considering whether partial funding of applications would be productive. (If, in FY 2022, NIJ elects to fund only certain phases of a proposed project, the expected scholarly products from the partial-funding award may, in some cases, vary from those described above.)

NIJ may elect to fund applications submitted under this FY 2022 solicitation in future fiscal years, dependent on, among other considerations, the merit of the applications and on the availability of appropriations.

What will not be funded:

- Applications primarily to purchase equipment, materials, or supplies. (A budget may include these items if they are necessary to conduct research, development, demonstration, evaluation, or analysis.)
- Applications that are not responsive to the purposes of this specific solicitation.
- Applications that fail to provide a plan to support the current OJJDP Statistical Briefing Book web content.

Cost Sharing or Matching Requirement

See “Cofunding” paragraph under “Budget and Associated Documentation” in the “Application and Submission Information” section.

**Application and Submission Information**

The following application elements **must** be included in the application to meet the basic minimum requirements to advance to peer review and receive consideration for funding:

- Proposal Narrative
- Budget Worksheet and Budget Narrative (Web-based Form) (The web-based form includes the budget details and the budget narrative.)
- Curriculum Vitae/Resumes for Key Personnel. (For purposes of this solicitation, “key personnel” means the principal investigator, and any and all co-principal investigators.)

See the “Application Elements and Formatting Instructions” section of the [OJP Grant Application Resource Guide](#) for information on what happens to an application that does not contain all the specified elements or is nonresponsive to the scope of the solicitation.

**Information to Complete the Application for Federal Assistance (SF-424)**

The SF-424 must be submitted in Grants.gov. The SF-424 is a required standard form used as a cover sheet for submission of pre-applications, applications, and related information. See the [OJP Grant Application Resource Guide](#) for additional information on completing the SF-424.

In Section 8.F. of the SF-424, please include the name and contact information of the individual who will complete the application in JustGrants. JustGrants will use this information (email address) to assign the application to this user in JustGrants.

**Intergovernmental Review:** This solicitation (“funding opportunity”) is not subject to Executive Order 12372. (In completing the SF-424, an applicant is to answer question 19 by selecting the response that the “Program is not covered by E.O. 12372.”)

**Standard Applicant Information (JustGrants 424 and General Agency Information)**

The Standard Applicant Information section of the JustGrants application is pre-populated with the SF-424 data
submitted in Grants.gov. The applicant will need to review the Standard Applicant Information in JustGrants and make edits as needed. Within this section, the applicant will need to: add zip codes for areas affected by the project, confirm its Authorized Representative, and verify and confirm the organization’s unique entity identifier, legal name and address.

Proposal Abstract

A proposal abstract (no more than 400 words) summarizing the proposed project including the purpose of the project, primary activities, expected outcomes, the service area, intended beneficiaries and subrecipients (if known), will be completed in the JustGrants web-based form. This abstract should be written in the third person and will be made publicly available on the OJP website if the project is awarded.

Proposal Narrative

The proposal narrative should be submitted as an attachment in JustGrants. The attached document should be double-spaced, using a standard 12-point font; have no less than 1-inch margins; and should not exceed 30 pages. Pages should be numbered and submitted as an attachment. If the program narrative fails to comply with these length restrictions, NIJ may consider such noncompliance in peer review and in final award decision.

The following sections must be included as part of the proposal narrative:

a. Title Page (not counted against the proposal narrative page limit)

The title page should include:

- Project title.
- Submission date.
- Funding opportunity number.
- Principal Investigator (and any co-principal investigators).
- Unique author identifier (e.g., ORCID, ResearcherID, Scopus Author ID), if available.
- Key words, including science focus areas.
- Contact information (that is, name, address, telephone number, and e-mail address) for both the applicant and the principal investigator.

b. Resubmit Response (if applicable) (not counted against the proposal narrative page limit.)

If an applicant is resubmitting an application presented previously to NIJ, but not funded, the applicant should indicate this. A statement should be provided, no more than two pages, addressing: (1) the title, submission date, and NIJ-assigned application number of the previous application, and (2) a brief summary of revisions to the application, including responses to previous feedback received from NIJ.

c. Table of Contents and Figures (not counted against the proposal narrative page limit)

d. Main Body

1. Statement of the Problem.

The statement of the problem should address the need for research in this area. Applicants should discuss current gaps in data, research, and knowledge, including those for particular justice sectors, for certain populations, and to answer questions relevant to current policy and practice needs and public interests. It is not uncommon for multiple problems to exist simultaneously (for example, there may be a criminal justice problem affecting public safety, a current technical challenge/need identified by forensic practitioners, as well as a scientific/technology gap between the current state of the art and a desired solution) and applicants should discuss each of these clearly and justify the importance of the separate issues. As part of this discussion, applicants should present a review of previous literature and discuss previous research related to these problems.

2. Project Design and Implementation.
Applicants should provide a detailed description of the strategies to implement this research project and address the research questions. Design elements should follow directly from the research project’s goals and objectives and address the program-specific information noted in the solicitation. Applicants should describe the research methodology and analysis plan in detail and demonstrate the validity and usefulness of the data they will collect. Applicants should consider the rigor and soundness of the methodology and analytical and technical approaches for the proposed research and address the feasibility of the proposed project and potential challenges or problems in carrying out the activities.

Applicants should describe the potential impact of the research and how it may inform or improve criminal or juvenile justice-related policy, practice, or theory in the United States. The applicant should include a discussion of the proposed dissemination plan to produce scholarly products and to make information available to broader interested audiences, such as criminal justice practitioners or policymakers.

4. Capabilities and Competencies.

This section should describe the experience and capability of the applicant organization, key staff, and any proposed subgrantees (including consultants) that the applicant will use to implement and manage this effort and the federal funds under this award, highlighting any previous experience implementing projects of similar scope, design, and magnitude. Applicants should address:

- Experience and capacity to work with the proposed data sources in the conduct of similar research efforts.
- Experience and capacity to design and implement rigorous research and data analysis projects.
- Experience producing and disseminating meaningful deliverables.

Applicants should also outline the management plan and organization that connects to the goals and objectives of the project.

5. Appendices (not counted against the proposal narrative page limit) include:

- The project management plan.
- If the application (including the budget) identifies any proposed non-competitive agreements that are or may be considered procurement “contracts” (rather than subawards), for purposes of federal grants administrative requirements, the applicant also must list the entities with which the applicant proposes to contract.

6. Plan for Collecting the Data Required for this Solicitation’s Performance Measures

Note: Applicants are not required to submit performance data with the application. Rather, performance measure information is included as an alert that successful applicants will be required to submit performance data as part of each award’s reporting requirements.

OJP will require each successful applicant to submit regular performance data that demonstrate the results of the work carried out under the award. The performance data directly relate to the goals, objectives, and deliverables identified in the “Goals, Objectives, and Deliverables” discussion.

A list of performance measure questions for this program can be found on page 19.

Applicants can also visit OJP’s performance measurement page at www.ojp.gov/performance for an overview of performance measurement activities at OJP.

NIJ will require award recipients to submit performance measurement data in quarterly financial reports, semi-
annual performance reports, and the Final Research Report. NIJ will provide further guidance on the post-award submission process, if selected for award.

Goals, Objectives, Deliverables, and Timeline

Applicants will submit the project’s goals, objectives, deliverables, and timelines in the JustGrants web-based form.

Budget and Associated Documentation

Budget Worksheet and Budget Narrative (Web-based Form)

The applicant will complete the JustGrants web-based budget form. See the OJP Grant Application Resource Guide for additional information.

Cofunding: An award made by NIJ under this solicitation may account for up to 100 percent of the total cost of the project. The application should indicate whether it is feasible for the applicant to contribute cash, facilities, or services as non-federal support for the project. The application should identify generally any such contributions that the applicant expects to make and the proposed budget should indicate in detail which items, if any, will be supported with non-federal contributions.

For additional match information, see the “Cost Sharing or Match Requirement” section under Federal Award Information.

If a successful application proposes a voluntary match amount, and OJP approves the budget, the total match amount incorporated into the approved budget becomes mandatory and subject to audit.

Indirect Cost Rate Agreement (if applicable)

The applicant will submit its indirect cost rate agreement by uploading it as an attachment in JustGrants. See the OJP Grant Application Resource Guide for additional information.

Financial Management Questionnaire (including applicant disclosure of high-risk status)

The applicant will download the questionnaire, complete it, and submit it by uploading it as an attachment in JustGrants. See the OJP Grant Application Resource Guide for the link to the questionnaire and additional information.

Disclosure of Process Related to Executive Compensation

This solicitation expressly modifies the OJP Grant Application Resource Guide by not incorporating its “Disclosure of Process Related to Executive Compensation” provisions. Applicants to this solicitation are not required to provide this disclosure.

Tribal Authorizing Resolution

An application in response to this solicitation may require inclusion of tribal authorizing documentation as an attachment. If applicable, the applicant will submit the tribal authorizing documentation by uploading it as an attachment in JustGrants. Applicants should use the “Proposed Project Staff, Affiliation, and Roles” form available on the NIJ webpage to prepare this list.

Human Subjects Protection

Privacy Certificate

Request to Use Incentives or Stipends

Applicants proposing to use incentives or stipends payments as part of their research project design, must submit an incentive or stipend approval request, as a separate document, according to the requirements set forth at https://nij.ojp.gov/funding/participant-support-costs-and-incentives-social-science-research.

Data Archiving Plan
Applicants should anticipate that NIJ will require, through special award conditions, that study-level documentation resulting in whole or in part from projects funded under this solicitation be submitted for archiving with the NACJD. See https://nij.ojp.gov/funding/research-development-and-evaluation-grant-award-requirements#data.

Applications should include a brief plan as a separate file — labeled “Data Archiving Plan” — to comply with data archiving requirements. The plan should provide brief details about proposed data management and archiving, including submission to NIJ (through NACJD) of all files and documentation necessary to allow for future efforts by others to reproduce the project’s findings and/or to extend the scientific value of the data set through secondary analysis. Pertinent study-related documentation includes, but is not limited to, a user guide with information about instructions for accessing secondary data sources analyzed for this project, and (when required) a copy of the privacy certificate and informed consent protocols.

The plan should be one or two pages in length and include the level of effort associated with meeting archiving requirements.

Note that recipients are strongly encouraged to submit required data sets at least 90 days before the end of the period of performance.

See the OJP Grant Application Resource Guide for additional information and the link to the questionnaire.

How to Apply

Step 2: The applicant must then submit the full application, including attachments, in JustGrants in
For additional information, see the “How to Apply” section in the OJP Grant Application Resource Guide and the DOJ Application Submission Checklist.

Submission Dates and Time

The SF-424 and the SF-LLL must be submitted in Grants.gov by 11:59 p.m. eastern time on May 9, 2022. *(IMPORTANT: Please carefully review UEI Transition details under Step 1. of the Submission Information section above).*

The full application must be submitted in JustGrants by 8:59 p.m. eastern time on May 23, 2022.

OJP urges applicants to submit their Grants.gov and JustGrants submissions prior to the due dates to allow sufficient time to correct errors and resubmit by the submission deadlines if a rejection notification is received. To be considered timely, the full application must be submitted in JustGrants by the JustGrants application deadline.

Experiencing Unforeseen Technical Issues

An applicant that experiences unforeseen SAM.gov, Grants.gov, or JustGrants technical issues beyond its control that prevent application submission by the deadline, must demonstrate all efforts in requesting technical support in order to submit an application by the deadline. Technical support is available via phone and email to the applicable SAM.gov, Grants.gov, or JustGrants support centers or service desks in which an applicant received a ticket number for resolution. If an applicant misses a deadline due to unforeseen technical difficulties, the applicant may request a waiver to submit an application after the deadline. *Note: If an applicant does not submit all the required Grants.gov forms by the Grants.gov deadline, the applicant will not be able to proceed to the JustGrants portion of the application process.*

An applicant requesting a waiver to submit a late application must document their request for technical assistance in an email to the OJP Response Center at grants@ncjrs.gov within **24 hours after the application deadline** to request approval to submit its application after the deadline. If an applicant has technical issues with Grants.gov, the applicant must contact OJP Response Center within 24 hours of the Grants.gov deadline to request approval to submit after the deadline. However, waiver requests will not be reviewed until after the JustGrants deadline to allow time for all waivers to be submitted. Waiver requests to submit after the submission deadline must:

- Describe the technical difficulties experienced;
- Include a timeline of the applicant's submission efforts (e.g., what date and time did the error occur, what date and time was action taken to resolve the issue and resubmit; and what date and time did support representatives respond);
- Include an attachment(s) of the complete grant application and all required documentation and material; and
- Include the applicant's DUNS number (or Unique Entity Identifier if applying after April 4, 2022), any applicable SAM.gov tracking number(s), Grants.gov Help Desk, and JustGrants Support Desk Ticket Numbers.

OJP will review each request for late submission and required supporting documentation and notify the applicant whether the request has been approved or denied. For more details on the waiver process, OJP encourages applicants to review the “Experiencing Unforeseen Technical Issues” section in the OJP Grant Application.

**Other Review Criteria**

Other important considerations for NIJ include geographic diversity, strategic priorities, available funding, past performance, and the extent to which the Budget Worksheet and Budget Narrative (Web-based form) accurately explain project costs that are reasonable, necessary, and otherwise allowable under federal law and applicable federal cost principles.

**Review Process**

Applications submitted under this solicitation that meet the basic minimum requirements, will be evaluated for technical merit by a peer review panel(s) in accordance with OJP peer review policy and procedures using the stated review criteria listed above.

OJP screens applications to ensure they meet the basic minimum requirements prior to conducting the peer review. Although specific requirements may vary, the following are common requirements applicable to all OJP solicitations:

- The application must be submitted by an eligible type of applicant.
- The application must request funding within programmatic funding constraints (if applicable).
- The application must be responsive to the scope of the solicitation.
- The application must include all items necessary to meet the basic minimum requirements.
- The application, if submitted by an applicant that is a DOJ High Risk Grantee, or is designated “high risk” by a federal grant-making agency outside of DOJ, must not have been determined by the NIJ Director to pose a substantial risk of program implementation failure, based on 1) the applicant’s lack of sufficient progress in addressing required corrective actions necessary for removal of the DOJ High Risk Grantee (or non-DOJ high risk) designation, 2) the nature and severity of the issues leading to or accompanying the DOJ High Risk Grantee (or non-DOJ high risk) designation, and/or 3) the applicant’s expected ability to manage grant funds and achieve grant goals and objectives.

Pursuant to the Part 200 Uniform Requirements, before award decisions are made, OJP also reviews information related to the degree of risk posed by the applicant. Among other things to help assess whether an applicant with one or more prior federal awards has a satisfactory record with respect to performance, integrity, and business ethics, OJP checks whether the applicant is listed in SAM as excluded from receiving a federal award.

In addition, if OJP anticipates that an award will exceed $250,000 in federal funds, OJP also must review and consider any information about the applicant that appears in the non-public segment of the integrity and performance system accessible through SAM (currently, the Federal Awardee Performance and Integrity Information System, FAPIIS).

**Important note on FAPIIS:** An applicant may review and comment on any information about itself that currently appears in FAPIIS and was entered by a federal awarding agency. OJP will consider such comments by the applicant, in addition to the other information in FAPIIS, in its assessment of the risk posed by the applicant.

All final award decisions will be made by Director of the National Institute of Justice, who may consider not only peer review ratings and NIJ recommendations, but also other factors as indicated in this section.
