### Overview

The [U.S. Department of Justice](#) (DOJ), [Office of Justice Programs](#) (OJP), [National Institute of Justice](#) (NIJ), seeks applications to fund rigorous research and evaluation projects to advance our understanding of intentional, interpersonal community-based violence, including firearm violence, and produce evidence about policies and programs that aim to prevent and reduce violence in the community. Specifically, NIJ seeks to fund proposals rigorous for: 1) research projects to advance understanding of community violence, including firearm violence and 2) evaluation of community violence intervention and prevention programs, policies, legislation, and practices to include those targeted at firearm violence. This program furthers the DOJ's mission by supporting the development of new knowledge and tools to address the challenges of crime and justice in the United States.

This solicitation incorporates the [OJP Grant Application Resource Guide](#) by reference. The OJP Grant Application Resource Guide provides guidance to applicants for the preparation and submission to OJP of applications for funding. **If this solicitation expressly modifies any provision in the OJP Grant Application Resource Guide, the applicant is to follow the guidelines in this solicitation as to that provision.**

For purposes of this solicitation, "state" means any state of the United States, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, Guam, American Samoa, and the Commonwealth of the Northern Mariana Islands.

To advance Executive Order 13929 Safe Policing for Safe Communities, the Attorney General determined that all state, local, and university or college law enforcement agencies must be certified by an approved independent

credentialing body or have started the certification process, to be eligible for FY 2022 DOJ discretionary grant funding. To become certified, the law enforcement agency must meet two mandatory conditions: (1) the agency's use-of-force policies adhere to all applicable federal, state, and local laws and (2) the agency's use-of-force policies prohibit chokeholds except in situations where use of deadly force is allowed by law. The certification requirement also applies to law enforcement agencies receiving DOJ discretionary grant funding through a subaward. For detailed information on this certification requirement, please visit <https://cops.usdoj.gov/SafePolicingEO> to access the Standards for Certification on Safe Policing for Safe Communities, the Implementation Fact Sheet, and the List of Designated Independent Credentialing Bodies.

Foreign governments, foreign organizations, and foreign colleges and universities are not eligible to apply. Federal agencies are eligible to apply. (Any award made to a federal agency will be made as an inter-agency reimbursable agreement.)

## Program Description

### Overview

OJP is committed to advancing work that promotes civil rights and racial equity, increases access to justice, supports crime victims and individuals impacted by the justice system, strengthens community safety and protects the public from crime and evolving threats, and builds trust between law enforcement and the community.

With this solicitation, NIJ seeks proposals for rigorous research and evaluation projects to advance our understanding of intentional, interpersonal community-based violence, including firearm violence, and produce evidence about policies and programs that aim to prevent and reduce violence in the community. Specifically, NIJ seeks to fund proposals for: 1) research projects to advance understanding of community violence, including firearm violence, and 2) evaluation of community violence intervention and prevention programs, policies, legislation, and practices to include those targeted at firearm violence.

This solicitation furthers the Department's mission by supporting the development of new knowledge and tools to create a comprehensive strategy for reducing violent crime. It further supports the DOJ Comprehensive Strategy for Reducing Violent Crime.

Applications proposing research involving partnerships with criminal justice or other agencies, should include a strong letter of support, signed by an appropriate decision-making authority from each proposed, partnering agency. A letter of support should include the partnering agency's acknowledgement that de-identified data derived from, provided to, or obtained through this project will be archived by the grant recipient with the National Archive of Criminal Justice Data (NACJD) at the conclusion of the award. Applicants and their potential partners are encouraged to review the NACJD's policies and protections at ([NACJD](#)). If selected for award, grantees will be expected to have a formal agreement in place with partnering agencies by January 1, 2023. That formal agreement must include a provision to meet the data archiving requirements of the award.

In the case of partnerships that will involve the use of federal award funds by multiple partnering agencies to carry out the proposed project, only one entity/partnering agency may be the applicant (as is the case with any application submitted in response to this solicitation); any others must be proposed as subrecipients.

### Statutory Authority

Department of Justice Appropriations Act, 2022, Public Law 117-103, 136 Stat. 49, 132-133; 28 USC 530C.

### Specific Information

This solicitation focuses broadly on concerns related to community violence, including firearm violence. Communities that have endured the highest levels of violence over generations are often communities of color, and disproportionate levels of violence in these communities contribute to a lowered sense of safety and security, and disparities in the criminal justice system. A firearm (obtained either legally or illegally for the use in criminal activities) is the most common tool used to perpetrate violence in the community, including such violent acts as firearm-related murders or assault-related injuries. Though a great deal has been learned about violence in the community, including strategies for violence intervention, prevention, and reduction, violence in our communities remains a significant problem without a simple solution.<sup>[1]</sup> Thus, this solicitation seeks to advance knowledge on violence in the community to inform development of effective violent crime reduction programs, policy, legislation, and practices.

Applicants should propose the most rigorous, appropriate design, incorporating theory-driven research and evaluation, and community stakeholder involvement whenever possible. This may include a focus on participatory or action research. Multi-site studies and replication studies of rigorously conducted research and evaluations are encouraged. In addition, NIJ is interested in both evaluations that propose to use existing data, or conduct primary data collection. NIJ encourages applicants to propose studies that include the collaboration of the criminal justice system with other systems that address community violence. These systems may include public safety, public health, education, social services, economic development, and other relevant community sectors.<sup>[2]</sup>

Applications should include and append any supplementary materials necessary to describe the program, practice, policy, or legislation under study and demonstrate that needed data will be available for the study.

This solicitation seeks proposals in two areas:

- Research to Improve Understanding of Community and Firearm Violence
- Evaluation of Community and/or Firearm Violence Prevention and Intervention Programs, Policies, and Legislation

### **Research to Improve Understanding of Community and Firearm Violence**

NIJ seeks applications for rigorous research with clear research questions to help improve our understanding of intentional, interpersonal violence in the community. Studies may examine community violence, the communities where violence occurs, those who perpetrate violence, and/or those who are victims of violence. As applicable, studies are encouraged to focus on communities where the firearm and/or other violence is persistently high or where there has been a recent increase in violence. Of specific interest is the examination of 1) the causes and consequences of community violence (this includes individual, macro, or societal factors), 2) individuals who are at high risk of engaging in or being victims of violent crime, and 3) place-based strategies addressing violent crime.

Applications may propose a range of topics related to community violence. Questions of interest to NIJ include, but are not limited to, the following:

- What are individual, macro-level, and/or societal factors that drive community violence, and how are these factors related to the fluctuation or prevalence of community violence?
- How does the illegal supply-flow of firearms for the commission of a violent crime, including but not limited to ghost guns, relate to community violence? Relatedly, what is the relationship between the source of firearms used in the commission of a violent crime and community violence?
- What role do social media and similar communication platforms play in community violence, including, but not limited to, temporal and spatial clustering of violent events occurring following a previous violent event?

Proposed research should help inform the development or refinement of community intervention or prevention programs, policies, legislation, and/or practices to reduce community and/or firearm violence. NIJ is specifically interested in proposals that include collaboration or partnerships with practitioner and community stakeholders to help inform the study.

### **Evaluation of Community and/or Firearm Violence Prevention and Intervention Programs, Policies, and Legislation**

NIJ seeks applications for rigorous evaluations to improve evidence on the effectiveness of approaches (e.g., local, community-based and government-based prevention and intervention programs, and legislation, policies, and/or practices) to prevent and reduce intentional, interpersonal violence in the community.<sup>3</sup> These may include approaches intended to impact violence in the community generally or those targeting particular types of violence, tools to commit violence (e.g., firearms), or individuals who are hard to reach and/or at the highest risk of violence perpetration and victimization (e.g., those involved in gangs, traumatized individuals). Applicants are expected to demonstrate how their study would build on existing research. The application should include a clear description of the approach(es) to be evaluated, including the purpose, key components, and intended short, intermediate, and long-term outcomes.

Of particular interest are applications that propose to examine the impact of the following approaches to reduce community violence:

- Community violence intervention programs.
- Comprehensive, community-wide approaches to prevention.
- Collaborative approaches involving multiple systems or disciplines (e.g., criminal justice, public health, and community-based service providers).
- Place-based interventions.
- Approaches to improve procedural justice and equity.

- Low-cost violence reduction strategies.
- Policing and investigative strategies and practices, including those targeted at preventing firearm violence.
- Legislation and/or policies, including but not limited to:
  - Those that support community violence intervention.
  - Those that control access to or restrictions on firearms (e.g., waiting periods, gun-free zones, and Extreme Risk Protection Order (ERPO) laws, otherwise known as "Red Flag Laws.>").
  - Those related to sentencing (e.g., sentencing enhancements for gang membership or plea bargaining of firearm-related charges).

NIJ wants to build an understanding not only of whether an overall program is effective but also of what elements within or external to the program design or implementation contribute to its success or failure. For example, applications may address the impact of particular program services or individuals who provide services (e.g., violence interrupters, skills training) in producing safer communities, as well as how to best engage the community in violence prevention and intervention. Relatedly, NIJ wants to improve understanding of benefits other than violence reduction that programs may have.

Funds from any award under this solicitation may include reasonable costs incurred by program personnel to support activities directly and exclusively required for the execution of the research and evaluation (e.g., manual extraction of administrative records).

**Note:**

Applicants considering research as it relates to programs providing services for victims of community violence should refer to the [NIJ FY22 Research and Evaluation of Services for Victims of Crime](#) to determine which solicitations' goals and objectives better fit the proposed research.

Applicants considering research as it relates to policing should refer to *the* [NIJ FY22 Research and Evaluation on Policing](#) to determine which solicitation's goals and objectives better fit the proposed research.

**New Investigator/Early Career Opportunity**

NIJ is interested in supporting researchers who are early in their careers and new to NIJ's research grant portfolios, specifically non-tenured assistant professors, or equivalent full-time staff scientist positions in a research institution, who propose research on topics relevant to NIJ's Office of Research, Evaluation, and Technology (ORET). To that end, NIJ may, in appropriate circumstances, give special consideration in award decisions to applications proposing such researchers as principal investigators (PIs). To qualify, the proposed PI must at the time of application submission:

- Hold a non-tenured assistant professor appointment at an accredited institution of higher education in the United States or an equivalent full-time staff scientist position at a research institution in the United States.
- Have completed a terminal degree or post-graduate clinical training within the six (6) years prior to September 30, 2022.
- Have never previously received NIJ funding as a PI on a research project with the exception of Graduate Research Fellows or Data Resources Program grantees.

If seeking to be considered for the New Investigator/Early Career Opportunity, the applicant should identify that they are submitting a New Investigator/Early Career proposal on the title page of the application.

**Goals, Objectives, Deliverables, and Timeline**

**Goals**

The goal of this solicitation is to advance knowledge that can be applied to inform development of effective policies and programs to prevent violent crime and firearm violence in communities.

**Objectives**

The objective of this solicitation is to fund research and evaluation grants to develop the knowledge needed to inform development of policies and programs to prevent violent crime and firearm violence in communities.

### **Deliverables**

Final Research Report. Any recipient of an award under this solicitation will be expected to submit a final research report. Additional information on the final research report requirement for the solicitation is posted on NIJ's [webpage](#). Applicants should plan to deliver a draft final research report 90 days prior to the conclusion of the award.

Required Data Sets and Associated Files and Documentation. Any recipient of an award under this solicitation will be expected to submit to the National Archive of Criminal Justice Data (NACJD) all data sets that result in whole or in part from the work funded by the award, along with associated files and any documentation necessary for future efforts by others to reproduce the project's findings and/or to extend the scientific value of the data set through secondary analysis.

In addition to these deliverables (and the required reports and data on performance measures), NIJ expects scholarly products to result from each award under this solicitation, taking the form of one or more published, peer-reviewed, scientific journal articles, and/or (if appropriate) law review journal articles, book chapter(s) or book(s) in the academic press, technological prototypes, patented inventions, or similar scientific products. NIJ expects that there will be an equal effort to make the research findings accessible to practitioner and policymaker audiences.

The Goals, Objectives, and Deliverables are directly related to the performance measures that show the completed work's results, as discussed in the Application and Submission Information section.

### **Priority Areas**

The Department of Justice is committed to advancing work that promotes civil rights and racial equity, increases access to justice, supports crime victims and individuals impacted by the justice system, strengthens community safety and protects the public from crime and evolving threats, and builds trust between law enforcement and the community.

#### **1. Priority Considerations Supporting Executive Order 13985, *Advancing Racial Equity and Support for Underserved Communities Through the Federal Government***

Consistent with this Executive Order, the term "underserved community" refers to a population sharing a particular characteristic, as well as a geographic community, that has been systematically denied a full opportunity to participate in aspects of economic, social, and civic life or whose members have been historically underserved, marginalized, and adversely affected by inequality. Such communities include, among others, Black people, Hispanics and Latino/a/e people, Native American and other Indigenous peoples of North America (including Alaska Natives, Eskimos, and Aleuts), Asian Americans, Native Hawaiians, and Pacific Islanders.

In support of Executive Order 13985, OJP will:

A. Give priority consideration to applications that propose research project(s) that will address issues related to racial equity and the removal of barriers to access and opportunity for communities that have been historically underserved, marginalized, and adversely affected by inequality, when making award decisions.

To receive this consideration, the applicant must describe how the proposed project(s) will address potential inequities and barriers to equal opportunity, and/or contribute to greater access to services for underserved and historically marginalized populations.

B. Give priority consideration to applicants that can demonstrate that their capabilities and competencies for implementing their proposed project(s) are enhanced because the applicant (or at least one proposed subrecipient that will receive at least 30% of the requested award funding, as demonstrated in the Budget Worksheet and Budget Narrative) identifies as a culturally specific organization. To receive this additional priority consideration, applicants must describe how being a culturally specific organization (or funding the culturally specific subrecipient organization(s)) will enhance their ability to implement the proposed project (s) and should also specify which culturally specific populations are intended or expected to be served or to have their needs addressed under the proposed project(s).

Culturally specific organizations are defined for purposes of this solicitation as private nonprofit or tribal

organizations whose primary purpose as a whole is to provide culturally specific services to, among others, Black people, Hispanics and Latino/a/e people, Native American and other Indigenous peoples of North America (including Alaska Natives, Eskimos, and Aleuts), Asian Americans, Native Hawaiians, and/or Pacific Islanders.

Note: Addressing these priority areas is one of many factors that the NIJ Director considers in making funding decisions. Receiving priority consideration for one or more priority areas is not a guarantee of an award.

## **Federal Award Information**

### **Solicitation Categories**

This solicitation does not include Solicitation Categories.

### **Awards, Amounts and Durations**

#### **Period of Performance Start Date**

1/1/23 12:00 AM

#### **Period of Performance Duration (Months)**

60

#### **Anticipated Total Amount to be Awarded Under Solicitation**

\$5,000,000.00

### **Additional Information**

Please see Anticipated Number of Awards, Maximum Dollar Amount for each Award, and Period of Performance Duration sections below.

### **Continuation Funding Intent**

NIJ may, in certain cases, provide additional funding in future years to awards made under this solicitation through continuation awards. OJP will consider, among other factors, OJP's strategic priorities, a recipient's overall management of the award, and the award-funded work's progress, when making continuation award decisions.

### **Availability of Funds**

This solicitation, and awards (if any are made) under this solicitation, are subject to the availability of appropriated funds and to any modifications or additional requirements that may be imposed by the agency or by law. In addition, nothing in this solicitation is intended to, and does not, create any right or benefit, substantive or procedural, enforceable at law or in equity by any party against the United States, its departments, agencies, or entities, its officers, employees, or agents, or any other person.

### **Types of Awards**

NIJ expects to make awards under this solicitation as grants. See the "Administrative, National Policy, and Other Legal Requirements" section of the [OJP Grant Application Resource Guide](#) for a brief discussion of important statutes, regulations, and award conditions that apply to many (or in some cases, all) OJP grants.

### **Financial Management and System of Internal Controls**

Award recipients and subrecipients (including recipients or subrecipients that are pass-through entities) must, as described in the Part 200 Uniform Requirements as set out at 2 C.F.R. 200.303, comply with standards for financial and program management. See the [OJP Grant Application Resource Guide](#) for additional information.

### **Budget Information**

If the applicant is proposing a project that reasonably could be conducted in discrete phases, with each phase resulting in completion of one or more significant, defined milestones, then NIJ strongly recommends that the applicant structure the application — specifically including the narrative, expected scholarly products, timelines/milestones, and budget worksheet and budget narrative — to clearly define each phase. (This is particularly the case if the applicant proposes a project that will exceed — in cost or the length of the period of

performance — the amount or length of time anticipated for an individual award (or awards) under this solicitation.) Given limitations on the availability to NIJ of funds for awards for research, development, and evaluation, this information will assist NIJ in considering whether partial funding of applications would be productive. (If, in FY 2022, NIJ elects to fund only certain phases of a proposed project, the expected scholarly products from the partial-funding award may, in some cases, vary from those described above.)

NIJ may elect to fund applications submitted under this FY 2022 solicitation in future fiscal years, dependent on, among other considerations, the merit of the applications and the availability of appropriations.

What will not be funded:

- Applications primarily to purchase equipment, materials, or supplies. (A budget may include these items if they are necessary to conduct research, development, demonstration, evaluation, or analysis.)
- Applications that are not responsive to the purposes of this specific solicitation.

#### **Cost Sharing or Matching Requirement**

See “Cofunding” paragraph under “Budget and Associated Documentation” in the “Application and Submission Information” section.

#### **Pre-agreement Costs (also known as Pre-award Costs)**

## Application and Submission Information

The following application elements **must** be included in the application to meet the basic minimum requirements to advance to peer review and receive consideration for funding:

- Proposal Narrative
- Budget Worksheet and Budget Narrative (Web-based Form) (The web-based form includes the budget details and the budget narrative.)
- Curriculum Vitae/Resumes for Key Personnel. (Curriculum Vitae for key personnel. For purposes of this solicitation, “key personnel” means the principal investigator, and any and all co-principal investigators.)

See the “Application Elements and Formatting Instructions” section of the [OJP Grant Application Resource Guide](#) for information on what happens to an application that does not contain all the specified elements or is nonresponsive to the scope of the solicitation.

### Information to Complete the Application for Federal Assistance (SF-424)

The SF-424 must be submitted in Grants.gov. It is a required standard form used as a cover sheet for submission of pre-applications, applications, and related information. See the [OJP Grant Application Resource Guide](#) for additional information on completing the SF-424.

In Section 8F of the SF-424, please include the name and contact information of the individual **who will complete the application in JustGrants**. JustGrants will use this information (*email address*) to assign the application to this user in JustGrants.

**Intergovernmental Review:** This solicitation (“funding opportunity”) is **not** subject to [Executive Order 12372](#). In completing the SF-424, an applicant is to answer question 19 by selecting the response that the “Program is not covered by E.O. 12372.”

### Standard Applicant Information (JustGrants 424 and General Agency Information)

The Standard Applicant Information section of the JustGrants application is pre-populated with the SF-424 data submitted in Grants.gov. The applicant will need to review the Standard Applicant Information in JustGrants and make edits as needed. Within this section, the applicant will need to: add zip codes for areas affected by the project, confirm its Authorized Representative, and verify the organization’s unique entity identifier, legal name and address.

### Proposal Abstract

A proposal abstract (no more than 400 words) summarizing the proposed project, including the purpose of the project, primary activities, expected outcomes, the service area, intended beneficiaries and subrecipients (if known), will be completed in the JustGrants web-based form. This abstract should be written in the third person and will be made publicly available on the OJP website if the project is awarded.

### Proposal Narrative

The proposal narrative should be submitted as an attachment in JustGrants. The attached document should be double-spaced, using a standard 12-point Times New Roman font; have no less than 1-inch margins; and should not exceed 30 pages. Pages should be numbered and submitted as an attachment. If the program narrative fails to comply with these length restrictions, NIJ may consider such noncompliance in peer review and in final award decision.

The following sections must be included as part of the proposal narrative:

- a. Title Page (not counted against the proposal narrative page limit)

The title page should include:

- Project title.
- Submission date.
- Funding opportunity number.
- Principal Investigator (and any co-principal investigators).
- Unique author identifier (e.g., ORCID, ResearcherID, Scopus Author ID), if available.
- Requests for consideration under “new investigator/early career” and/or “priority 1A,” and/or “priority area 1B.
- Key words, including science focus areas.
- Contact information (that is, name, address, telephone number, and e-mail address) for both the applicant and the principal investigator.

b. Resubmit Response (if applicable) (not counted against the proposal narrative page limit.)

If an applicant is resubmitting an application presented previously to NIJ, but not funded, the applicant should indicate this. A statement should be provided, no more than two pages, addressing: (1) the title, submission date, and NIJ-assigned application number of the previous application, and (2) a brief summary of revisions to the application, including responses to previous feedback received from NIJ.

c. Table of Contents and Figures (not counted against the proposal narrative page limit)

d. Main Body

1. Statement of the problem.

The statement of the problem should address the need for research in this area. Applicants should discuss current gaps in data, research, and knowledge, including those for particular justice sectors, for certain populations, and to answer questions relevant to current policy and practice needs and public interests. It is not uncommon for multiple problems to exist simultaneously (for example, there may be a criminal justice problem affecting public safety, a current technical challenge/need identified by forensic practitioners, as well as a scientific/technology gap between the current state of the art and a desired solution) and applicants should discuss each of these clearly and justify the importance of the separate issues. As part of this discussion, applicants should present a review of previous literature and discuss previous research related to these problems.

2. Project Design and Implementation.

Applicants should provide a detailed description of the strategies to implement this research project and address the research questions to include a discussion of their theoretical underpinning. Design elements should follow directly from the research project’s goals and objectives and address the program-specific information noted in the solicitation. Applicants should describe the research methodology and analysis plan in detail and demonstrate the validity and usefulness of the data they will collect. Applicants should consider the rigor and soundness of the methodology and analytical and technical approaches for the proposed research and address the feasibility of the proposed project and potential challenges or problems in carrying out the activities.

If the applicant is seeking priority consideration for Priority 1(A), it should address in this section how the proposed project(s) will address issues related to racial equity and/or the removal of barriers to access and opportunity, and/or contribute to greater access to services, for communities that have been historically underserved, marginalized, and adversely affected by inequality.

3. Potential Impact.

Applicants should describe the potential impact of the research and how it may inform or improve criminal or juvenile justice-related policy, practice, or theory in the United States. The applicant should include a discussion of the proposed dissemination plan to produce scholarly products and to make information available to broader interested audiences, such as criminal justice practitioners or policymakers.

#### 4. Capabilities and Competencies.

This section should describe the experience and capability of the applicant organization, key staff, and any proposed subgrantees (including consultants) that the applicant will use to implement and manage this effort and the federal funds under this award, highlighting any previous experience implementing projects of similar scope, design, and magnitude. Applicants should address:

- Experience and capacity to work with the proposed data sources in the conduct of similar research efforts.
- Experience and capacity to design and implement rigorous research and data analysis projects.
- Experience producing and disseminating meaningful deliverables.

Applicants should also outline the management plan and organization that connects to the goals and objectives of the project.

If the applicant is seeking priority consideration under Priority 1(B), it should describe within this section how being a culturally specific organization (or funding a culturally specific subrecipient organization at a minimum of 30% of the project budget) will enhance its ability to implement the proposed project(s) and should also specify which culturally specific populations are intended or expected to be the subject and/or beneficiary of the research conducted under the proposed project(s).

#### 5. Appendices (not counted against the proposal narrative page limit) include:

- The project management plan.
- If the application (including the budget) identifies any proposed non-competitive agreements that are or may be considered procurement "contracts" (rather than subawards), for purposes of federal grants administrative requirements, the applicant also must list the entities with which the applicant proposes to contract.
- List of other agencies, organizations, or funding sources to which this application has been submitted (if applicable).

#### 6. Plan for Collecting the Data Required for this Solicitation's Performance Measures

Note: Applicants are not required to submit performance data with the application. Rather, performance measure information is included as an alert that successful applicants will be required to submit performance data as part of each award's reporting requirements.

OJP will require each successful applicant to submit regular performance data that show the completed work's results. The performance data directly relate to the goals, objectives, and deliverables identified in the "Goals, Objectives, and Deliverables" discussion.

A list of performance measure questions for this program can be found on page 21.

Applicants can also visit OJP's performance measurement page at [www.ojp.gov/performance](http://www.ojp.gov/performance) for an overview of performance measurement activities at OJP.

NIJ will require award recipients to submit performance measure data in quarterly financial reports, semi-annual performance reports, and the Final Research Report. NIJ will provide further guidance on the post-award submission process, if selected for award.

#### **Goals, Objectives, Deliverables, and Timeline**

Applicants will submit the project's goals, objectives, deliverables and timelines in the JustGrants Web-based form.

#### **Budget and Associated Documentation**

##### **Budget Worksheet and Budget Narrative (Web-based Form)**

The applicant will complete the JustGrants web-based budget form. See the [OJP Grant Application Resource Guide](#) for additional information.

If the applicant is seeking priority consideration under Priority 1(B) based on the identification of at least one proposed subrecipient as a culturally specific organization, the proposed funding for the subrecipient in the web-based budget form **must be a minimum of 30% of award funding**.

The budget narrative must also describe how the activities that will be funded with the (minimum) 30% of award funding provided to the subrecipient **specifically relate to the priority consideration requested under Priority 1(B)** and described in the Capabilities and Competencies section of the application.

The following paragraph (on “Cofunding”) expressly modifies the “Cost Sharing or Matching Requirement” provisions in the OJP Grant Application Resource Guide. The applicant is to follow the guidance in the following paragraph instead of the guidance stated under the “Cost Sharing or Matching Requirement” heading in the OJP Grant Application Resource Guide.

**Cofunding:** An award made by NIJ under this solicitation may account for up to 100 percent of the total cost of the project. The application should indicate whether it is feasible for the applicant to contribute cash, facilities, or services as non-federal support for the project. The application should identify generally any such contributions that the applicant expects to make and the proposed budget should indicate in detail which items, if any, will be supported with non-federal contributions.

For additional match information, see the “Cost Sharing or Match Requirement” section under Federal Award Information.

If a successful application proposes a voluntary match amount, and OJP approves the budget, the total match amount incorporated into the approved budget becomes mandatory and subject to audit.

#### **Indirect Cost Rate Agreement (if applicable)**

The applicant will submit its indirect cost rate agreement by uploading it as an attachment in JustGrants. See the [OJP Grant Application Resource Guide](#) for additional information.

#### **Financial Management Questionnaire (including applicant disclosure of high-risk status)**

The applicant will download the questionnaire, complete it, and submit it by uploading it as an attachment in JustGrants. See the [OJP Grant Application Resource Guide](#) for the link to the questionnaire and additional information.

#### **Disclosure of Process Related to Executive Compensation**

This solicitation expressly modifies the OJP Grant Application Resource Guide by not incorporating its “Disclosure of Process Related to Executive Compensation” provisions. Applicants to this solicitation are not required to provide this disclosure.

#### **Additional Application Components**

Applicants will attach the additional requested documentation in JustGrants.

#### **Curriculum Vitae or Resumes**

Curriculum vitae of key personnel. Curriculum vitae or resume of the principal investigator and any and all co-principal investigators. In addition, curriculum vitae, resume, or biographical sketches of all other individuals (regardless of “investigator” status) who will be significantly involved in substantive aspects of the proposed project (including, for example, individuals such as statisticians used to conduct proposed data analysis).

#### **Tribal Authorizing Resolution**

An application in response to this solicitation may require inclusion of tribal authorizing documentation as an attachment. If applicable, the applicant will submit the tribal authorizing documentation by uploading it as an

attachment in JustGrants. See the [OJP Grant Application Resource Guide](#) for information on tribal authorizing resolutions.

To assist OJP in assessing actual or apparent conflicts of interest (including such conflicts on the part of prospective reviewers of the application), provide a complete list of the individuals named or otherwise identified anywhere in the application (including in the budget or in any other attachment) who will or may work (or advise or consult) on the proposed research, development, or evaluation project. Applicants should use the "[Proposed Project Staff, Affiliation, and Roles](#)" form available on the NIJ webpage to prepare this list.

#### **Human Subjects Protection**

See <https://nij.ojp.gov/funding/research-development-and-evaluation-grant-award-requirements#data>.

Applications should include as an appendix a brief plan as a separate attachment — labeled “Data Archiving Plan” — to comply with data archiving requirements. The plan should provide brief details about proposed data management and archiving, including submission to NIJ (through NACJD) of **all files and documentation** necessary to allow for future efforts by others to reproduce the project’s findings and/or to extend the scientific value of the data set through secondary analysis. Pertinent files and documentation include, among other things, qualitative and quantitative data produced, instrumentation and data collection forms, codebook(s), any specialized programming code necessary to reproduce all constructed measures and the original data analysis, description of necessary de-identification procedures, and (when required) a copy of the privacy certificate and informed consent protocols.

The plan should be one or two pages in length and include the level of effort associated with meeting archiving requirements.

Note that recipients are strongly encouraged to submit required data sets at least 90 days before the end of the period of performance.

See the [OJP Grant Application Resource Guide](#) for additional information.

## How to Apply

Step 1: The applicant must submit the **SF-424** and **SF-LLL** in Grants.gov at <https://www.grants.gov/web/grants/register.html>.

Step 2: The applicant must then submit the **full application**, including attachments, in JustGrants in [JustGrants.usdoj.gov](https://www.justgrants.usdoj.gov).

For additional information, see the “How to Apply” section in the [OJP Grant Application Resource Guide](#) and the [DOJ Application Submission Checklist](#).

## Submission Dates and Time

The **SF-424 and the SF-LLL** must be submitted in Grants.gov by 11:59 p.m. eastern time on May 20, 2022.

The full application must be submitted in JustGrants by 8:59 p.m. eastern time on June 3, 2022.

OJP urges applicants to submit their Grants.gov and JustGrants submissions prior to the due dates to allow sufficient time to correct errors and resubmit by the submission deadlines if a rejection notification is received. To be considered timely, the **full application** must be submitted in JustGrants by the JustGrants application deadline.

## Experiencing Unforeseen Technical Issues

An applicant that experiences unforeseen SAM.gov, Grants.gov, or JustGrants technical issues beyond its control that prevent application submission by the deadline, must demonstrate all efforts in requesting technical support in order to submit an application by the deadline. Technical support is available via phone and email to the applicable SAM.gov, Grants.gov, or JustGrants support centers or service desks in which an applicant received a ticket number for resolution. If an applicant misses a deadline due to unforeseen technical difficulties, the applicant may request a waiver to submit an application after the deadline. *Note: If an applicant does not submit all the required Grants.gov forms by the Grants.gov deadline, the applicant will not be able to proceed to the JustGrants portion of the application process.*

An applicant experiencing technical difficulties with the following systems must contact the associated support desk indicated below to report the technical issue and receive a tracking number:

- Grants.gov - contact the [Grants.gov Customer Support Hotline](#)
- SAM.gov - contact the [SAM Help Desk \(Federal Service Desk\)](#)
- JustGrants - contact the JustGrants Support Desk at [JustGrants.Support@usdoj.gov](mailto:JustGrants.Support@usdoj.gov) or 833-872-5175

An applicant requesting a waiver to submit a late application must document their request for technical assistance in an email to the OJP Response Center at [grants@ncjrs.gov](mailto:grants@ncjrs.gov) **within 24 hours after the application deadline** to request approval to submit its application after the deadline. If an applicant has technical issues with Grants.gov, the applicant must contact OJP Response Center within 24 hours of the Grants.gov deadline to request approval to submit after the deadline. However, waiver requests will not be reviewed until after the JustGrants deadline to allow time for all waivers to be submitted. Waiver requests to submit after the submission deadline must:

- Describe the technical difficulties experienced;
- Include a timeline of the applicant's submission efforts (e.g., what date and time did the error occur, what date and time was action taken to resolve the issue and resubmit; and what date and time did support representatives respond)
- Include an attachment(s) of the complete grant application and all required documentation and material; and
- Include the applicant's Unique Entity Identifier (UEI) and any applicable SAM.gov tracking number(s), Grants.gov Help Desk, and JustGrants Support Desk Ticket Numbers.

OJP will review each request for late submission and required supporting documentation and notify the applicant

whether the request has been approved or denied. For more details on the waiver process, OJP encourages applicants to review the “Experiencing Unforeseen Technical Issues” section in the [OJP Grant Application Resource Guide](#).

## 5. Budget (0%)

In addition, peer reviewers will consider and may comment on the following additional items in the context of scientific and technical merit.

- Alignment of the proposed budget with proposed project activities.
- Total cost of the project relative to the perceived benefit (cost effectiveness).
- Appropriateness of the budget relative to the level of effort.
- Use of existing resources to conserve costs.

### **Other Review Criteria**

Other important considerations for NIJ include geographic diversity, strategic priorities (specifically including, but not limited to, those mentioned above relating to priority areas), available funding, past performance, and the extent to which the Budget Worksheet and Budget Narrative (Web-based form) accurately explain project costs that are reasonable, necessary, and otherwise allowable under federal law and applicable federal cost principles.

### **Review Process**

Applications submitted under this solicitation that meet the basic minimum requirements will be evaluated for technical merit by a peer review panel(s) in accordance with OJP peer review policy and procedures using the review criteria listed above.

OJP screens applications to ensure they meet the basic minimum requirements prior to conducting the peer review. Although specific requirements may vary, the following are common requirements applicable to all OJP solicitations:

- The application must be submitted by an eligible type of applicant.
- The application must request funding within programmatic funding constraints (if applicable).
- The application must be responsive to the scope of the solicitation.
- The application must include all items necessary to meet the basic minimum requirements.
- The application, if submitted by an applicant that is a DOJ High Risk Grantee, or is designated "high risk" by a federal grant-making agency outside of DOJ, must not have been determined by the NIJ Director to pose a substantial risk of program implementation failure, based on 1) the applicant's lack of sufficient progress in addressing required corrective actions necessary for removal of the DOJ High Risk Grantee (or non-DOJ high risk) designation, 2) the nature and severity of the issues leading to or accompanying the DOJ High Risk Grantee (or non-DOJ high risk) designation, and/or 3) the applicant's expected ability to manage grant funds and achieve grant goals and objectives.

Pursuant to the Part 200 Uniform Requirements, before award decisions are made, OJP also reviews information related to the degree of risk posed by the applicant. Among other things to help assess whether an applicant with one or more prior federal awards has a satisfactory record with respect to performance, integrity, and business ethics, OJP checks whether the applicant is listed in SAM as excluded from receiving a federal award.

In addition, if OJP anticipates that an award will exceed \$250,000 in federal funds, OJP also must review and consider any information about the applicant that appears in the non-public segment of the integrity and performance system accessible through SAM (currently, the Federal Awardee Performance and Integrity Information System, FAPIIS).

**Important note on FAPIIS:** An applicant may review and comment on any information about itself that currently appears in FAPIIS and was entered by a federal awarding agency. OJP will consider such comments by the applicant, in addition to the other information in FAPIIS, in its assessment of the risk posed by the applicant.

All final award decisions will be made by Director of the National Institute of Justice, who may consider not only peer review ratings and NIJ recommendations, but also other factors as indicated in this section.
