Program Description

Overview

OJP is committed to advancing work that promotes civil rights and racial equity, increases access to justice, supports crime victims and individuals impacted by the justice system, strengthens community safety and protects the public from crime and evolving threats, and builds trust between law enforcement and the community.

With this solicitation, NIJ seeks applications for funding for investigator-initiated research examining how observed racial and ethnic disparities in the justice system might be reduced through public policy interventions at any point during the administration of justice from two categories of researchers:

1. Category 1: W.E.B. Du Bois Scholars – Researchers who are advanced in their careers (awarded a terminal degree at least seven years prior to December 31, 2022) may apply for grants for research, evaluation, and mentoring of less-experienced researchers.
2. Category 2: W.E.B. Du Bois Fellows – Researchers who are early in their careers (awarded a terminal degree within seven years of December 31, 2022) may apply for grants for research and evaluation.

NIJ will give special consideration to proposals with methods that include meaningful engagement with the people with lived experience of the subject of study; including, but not limited to, justice practitioners, community members, crime victims, service providers and individuals who have experienced justice system involvement.

Applicants are encouraged to propose multidisciplinary research teams to build on the complementary strengths of different methods and areas of subject matter expertise. NIJ also seeks proposals that include consideration and measurement of issues of diversity, discrimination, and bias across age, gender and gender identity, race, ethnicity, religion, and sexual orientation, as applicable.

Applications proposing research involving partnerships with criminal justice or other agencies, should include a letter of support, signed by an appropriate decision-making authority from each proposed, partnering agency. A letter of support should include the partnering agency's acknowledgement that de-identified data derived from, provided to, or obtained through an award funded by NIJ will be archived by the grant recipient with the National Archive of Criminal Justice Data (NACJD) at the conclusion of the award. Applicants and their potential partners are encouraged to review [NIJ's data archiving guidance](#). If selected for an award, grantees will be expected to have a formal agreement in place with partnering agencies by January 1, 2024. That formal agreement must include a provision to meet the data archiving requirements of the award.

NIJ seeks proposals that include robust, creative, and multi-pronged dissemination strategies that include strategic partnerships with organizations and associations that are best equipped to ensure that research findings lead to changes in policies and practices related to the subjects of study. Special consideration will be given to proposals that dedicate at least 15% of the requested project award funding toward implementing such strategies, as demonstrated in the Budget Worksheet and Budget Narrative.

In the case of partnerships that will involve the use of federal award funds by multiple partnering agencies to carry out the proposed project, only one entity/partnering agency may be the applicant (as is the case with any application submitted in response to this solicitation); any others must be proposed as subrecipients. The applicant is expected to conduct a majority of the work proposed.

Statutory Authority

Title I of the Omnibus Crime Control and Safe Streets Act of 1968 (sections 201 and 202); 28 U.S.C. 530C.

Specific Information

W.E.B. Du Bois (1868-1963) was an American sociologist, historian, writer, and editor. As a social scientist, Du Bois used objective scientific methods to promote social change. *The Philadelphia Negro: A Social Study*,^[1] published by Du Bois in 1899, was a groundbreaking sociological study of the city's African American community. It was one of the first research projects to combine urban ethnography (the study of city life) with social history and descriptive statistics.

From FY 2000 to 2018, NIJ supported the W.E.B. Du Bois Program (Program) to advance the field of research on race and crime in the United States, with funding for fellows who are early in their careers. In FY 2016, NIJ expanded the Program to include a funding category with support for more extensive research projects led by experienced principal investigators (PIs) who could mentor early career researchers. NIJ reinstituted the W.E.B. Du Bois Program in FY 2021, focusing on research on public policy interventions that can reduce racial and ethnic disparities in the justice system. We continue this focus in FY 2023.

Racial and ethnic disparities in the justice system have been well-documented in the research literature.^[2] For example, Black Americans, Latinos, and Native Americans are disproportionately represented in arrest, prosecution, conviction, and incarceration rates.^[3] In addition, communities of color often experience high levels of crime and victimization.^[4]

Since President Johnson's Commission on Law Enforcement and Administration of Justice 55 years ago, substantial empirical attention has been devoted to uncovering factors that contribute to racial and ethnic disparities in the justice system, and, to a lesser extent, programs, policies, and practices that might lessen such disparities.^[5] Studies have examined disparity at all stages of the justice process, from police discretion to arrest, to incarceration, and to application of the death penalty. In addition, special issues of journals have focused on strategies aimed at reducing this disparity.^[6] Although the call for reform to address racial and ethnic disparities within the justice system is not new, it became more urgent in 2020 with the deaths of George Floyd and Breonna Taylor, which led to massive protests against racial injustice within the U.S. and abroad.^[7]

NIJ has a long history of funding research on race, culture, gender, and crime and their intersections with the administration of justice, particularly, but not exclusively, through the W.E.B. Du Bois Program. Potential applicants should look at the NIJ website to review projects NIJ has previously funded under this Program.^[8]

With this solicitation, NIJ seeks proposals for rigorous research projects examining the existing body of evidence to identify policy interventions that have the potential to reduce observed racial and ethnic disparities in the justice system (which may involve primary and/or secondary data collection). NIJ expects the findings and recommendations derived from this research to guide future research and the testing of promising interventions.

NIJ is interested in policy interventions that have the potential to reduce disparities at any point during the administration of justice for juveniles and/or adults. These interventions could include policing practices, access to defense resources, access to justice, pre-trial release practices, charging decisions, sanctions imposed, access to treatment services, post-release programming, or any other point at which disparity is evident. NIJ is particularly interested in identifying those interventions that have the greatest potential to positively intervene in an individual's progress out of the justice system.

NIJ seeks applications for funding from two categories of researchers:

Category 1: W.E.B. Du Bois Scholars

A primary goal of the W.E.B. Du Bois Scholars Program is to grow the field of well-trained researchers

examining the intersections of race, crime, violence, and the administration of justice within the United States. Therefore, Scholars (researchers who have been awarded a terminal degree at least seven years prior to December 31, 2022) must propose a mentorship component to the study that goes beyond hiring graduate and undergraduate students as project staff.

Applications must include a general mentorship plan, with details on how the proposed research will contribute to the mentoring and training of junior researchers, graduate students, and/or undergraduate students by the Scholar and research partners. **This general mentorship plan must be provided as an appendix to the application.**

For mentorship plan approval as part of the grant award process, NIJ will require:

- The curriculum vitae/resume of the individual(s) to be mentored.
- A career development plan for the mentee(s).
- A description of the use of resources for the mentoring enterprise, such as research workspace and equipment, statistical software, and other research support.
- A description of the availability of activities (including classes, seminars, and informal opportunities) for interaction with other scientists or researchers.
- Training in career skills, such as grant-writing and effective presentations.
- A statement that at least one peer-reviewed journal article from the project will be first authored by the mentee(s).

Nominally, a W.E.B. Du Bois Scholars grant project is expected to take 36 months or more to complete and have a minimum value of \$500,000. However, the actual period of performance proposed and funding request will be determined by the research requirements, up to the full 5-years allowed, and the total funding amount anticipated to be available to support this solicitation.

Category 2: W.E.B. Du Bois Fellows

Prospective Fellows from all social and behavioral sciences, technology, engineering, and mathematics are welcome to apply. Applicants must:

- Possess a terminal degree in their respective field.
- Not have been awarded tenure by December 31, 2022.

NIJ is soliciting proposals for Fellowships from researchers early in their careers to conduct qualitative and/or quantitative research, including secondary data analysis. This category offers talented researchers an opportunity to elevate independently generated research and ideas to the level of national discussion. In this funding category, first-time grant recipients are encouraged to apply. Fellowship applicants should indicate on the cover page of the program narrative that they are applying to the Fellows category of this solicitation.

Nominally, a W.E.B. Du Bois Fellows grant project is expected to take 24 months or more to complete and have a minimum value of \$250,000. However, the actual period of performance proposed and funding request will be determined by the research requirements, up to the full 5-years allowed, and the total funding amount anticipated to be available to support this solicitation.

Applicants under both categories must provide, as applicable:

- A complete description of the data to be used in the study. This narrative should include the number

of cases, complete variable descriptions, data collection method, data format, data source, and the cost of accessing data.

- A description of the justice phenomena that currently results in unwarranted disparity in the treatment of, or outcomes for, racial or ethnic categories.
- A disparity analysis (using existing data) showing evidence of racial or ethnic disparity surrounding the justice phenomena or event to be studied. NIJ is interested in proposals documenting evidence of disparity in the population to be studied and surrounding the specific activity under study.
- A detailed description of the modification or intervention expected to resolve unwarranted disparity and a summary of the literature that the proposed intervention will effectively reduce unwarranted disparity.
- A description of the analytic techniques to be employed and methods of determining success/failure must be provided if the method relies on statistical modeling of the intervention/modification.
- An explicit statement discussing how the proposed research follows the W.E.B. Du Bois Program's tradition of multidisciplinary scientific inquiry and how it will propel the justice research field forward.

Additional Information

Applicants should discuss potential risks and harms to individuals or groups associated with the use and/or misuse of any practice or technology proposed as a part of the research and evaluation, as well as any ethical considerations that may factor into its use. In addition, applicants should be aware of all relevant statutes, regulations, and/or governing judicial decisions (e.g., established case law, prevailing court rulings) related to the practice or technology's proposed use. Any limitations that may impede the lawful use or implementation of any practice or technology proposed should be described, and a realistic approach to mitigate such limitations in the context of the proposed research should be discussed.

Evaluation Research

If an application includes an evaluation research component (or consists entirely of evaluation research), the application is expected to propose the most rigorous evaluation design appropriate for the research questions to be addressed. If the primary purpose of the evaluation is to determine the effectiveness or impact of an intervention (e.g., program, practice, or policy), the most rigorous evaluation designs may include random selection and assignment of participants (or other appropriate units of analysis) to experimental and control conditions. In cases where randomization is not feasible, applicants should propose a strong quasi-experimental design that can address the risk of selection bias.

Applications that propose evaluation research should also include an implementation evaluation component to ensure that implementation fidelity metrics are collected and analyzed. Applicants are encouraged to propose research methods that enable interim feedback on implementation fidelity to enable program providers to make ongoing improvements in program delivery.

If an application proposes research (including research and development) and/or evaluation, the applicant must demonstrate research/evaluation independence and integrity through discussion of potential risks (if any) to independence and integrity, and appropriate safeguards, as required.

NIJ also encourages applicants to consider the feasibility of including a cost/benefit analysis. In cases where evaluations find that interventions have produced the intended benefit, cost/benefit analysis provides valuable and practical information for practitioners and policymakers that helps with decision-making. Evaluation research projects may also address a wide range of research questions beyond those focused on the effectiveness or impact of an intervention. Different research designs may be more appropriate for different research questions and at different stages of program development. The intervention setting, strategies, other contextual factors, and resources should be considered when

selecting an evaluation design.

In all cases, applications are expected to propose the most rigorous evaluation design appropriate for the research questions to be addressed. Applicants are encouraged to review evidence-rating criteria at <https://crimesolutions.ojp.gov/about/how-we-review-and-rate-program-start-finish> for further information on high-quality evaluation design elements.

Goals, Objectives, and Deliverables

Goals

The primary goal of this solicitation is to promote the fair administration of justice. Findings from this research program will assist state, local, and tribal jurisdictions in promoting fairer justice systems and increase the legitimacy of those systems, thus enhancing racial and ethnic communities' trust in public safety. Secondary goals include advancing research methods and growing the field of well-trained researchers.

Objectives

This solicitation aims to: 1) identify policy interventions that have the potential to reduce racial and ethnic disparities in the justice system and guide future research and testing of promising interventions; 2) translate and disseminate research findings to diverse stakeholder audiences to improve practice and policy through science; and 3) build an enhanced capability to conduct rigorous justice research and evaluation projects through the mentoring of junior researchers by scholars advanced in their careers.

Deliverables

Final Research Report. Any recipient of an award under this solicitation will be expected to submit a final research report. Additional information on the final research report requirement for the solicitation is posted on NIJ's [webpage](#).

Required Data Sets and Associated Files and Documentation. Any recipient of an award under this solicitation will be expected to submit to the National Archive of Criminal Justice Data (NACJD) all data sets that result in whole or in part from the work funded by the award, along with associated files and any documentation necessary for future efforts by others to reproduce the project's findings and/or to extend the scientific value of the data set through secondary analysis.

In addition to these deliverables (and the required reports and data on performance measures), NIJ expects scholarly products to result from each award under this solicitation, taking the form of one or more published, peer-reviewed, scientific journal articles, and/or (if appropriate) law review journal articles, book chapter(s) or book(s) in the academic press, technological prototypes, patented inventions, or similar scientific products. NIJ expects that there will be an equal effort to make the research findings accessible to practitioner and policymaker audiences.

The goals, objectives, and deliverables are directly related to the performance measures that show the completed work's results, as discussed in the "Application and Submission Information" section.

Priority Areas

NIJ will give special consideration in award decisions to proposals from Minority Serving Institutions (MSIs).

MSIs include:

- Historically Black Colleges and Universities (HBCU).
- Hispanic-serving Institutions (HSI).

- Tribal Colleges and Universities (TCU).
- Alaska Native-serving Institutions or Native Hawaiian-serving Institutions (ANNH).
- Predominantly Black Institutions (PBI).
- Asian American and Native American Pacific Islander-serving Institutions (AANAPISI).
- Native American-serving Non-Tribal Institutions (NASNTI).

Whether an institution is an MSI is based on the original purpose of its establishment or its current enrollment thresholds and is designated as such by the federal government for various purposes under specific statutes. For more information, please see the U.S. Department of Education's [definitions](#) and [lists of institutions](#). (The lists are provided for reference purposes only; MSI status is not an eligibility criterion for this solicitation.)

Note: Addressing this priority area is one of many factors that NIJ considers in making funding decisions. Receiving priority consideration for this priority area does not guarantee an award.

Continuation Funding Intent

NIJ may, in certain cases, provide additional funding in future years to awards made under this solicitation through continuation awards. NIJ will consider, among other factors, NIJ's strategic priorities,

a recipient's overall management of the award, and the award-funded work's progress, when making continuation award decisions.

Availability of Funds

This solicitation, and awards under this solicitation, are subject to the availability of appropriated funds and to any modifications or additional requirements that may be imposed by the agency or by law. In addition, nothing in this solicitation is intended to, and does not, create any right or benefit, substantive or procedural, enforceable at law or in equity by any party against the United States, its departments, agencies, or entities, its officers, employees, or agents, or any other person.

Type of Award

NIJ expects to make awards under this solicitation as grants. See the "Administrative, National Policy, and Other Legal Requirements" section of the [OJP Grant Application Resource Guide](#) for a brief discussion of important statutes, regulations, and award conditions that apply to many (or in some cases, all) OJP grants.

NIJ also expects to make awards under this solicitation as cooperative agreements, which provide for OJP to have substantial involvement in carrying out award activities. See the "Administrative, National Policy, and Other Legal Requirements" section of the [OJP Grant Application Resource Guide](#) for additional information.

Financial Management and System Controls

?????Award recipients and subrecipients (including recipients or subrecipients that are pass-through entities) must, as described in the Part 200 Uniform Requirements as set out at 2 C.F.R. 200.303, comply with standards for financial and program management. See the [OJP Grant Application Resource Guide](#) for additional information.

Budget Information

If the applicant is proposing a project that reasonably could be conducted in discrete phases, with each phase resulting in completion of one or more significant, defined milestones, then NIJ strongly recommends that the applicant structure the application — specifically including the narrative, expected scholarly products, timelines/milestones, and budget detail worksheet and budget narrative — to clearly define each phase. (This is particularly the case if the applicant proposes a project that will exceed — in cost or the length of the period of performance — the amount or length of time anticipated for an individual award (or awards) under this solicitation.) Given limitations on the availability to NIJ of funds for awards for research, development, and evaluation, this information will assist NIJ in considering whether partial funding of applications would be productive. (If, in FY 2023, NIJ elects to fund only certain phases of a proposed project, the expected scholarly products from the partial-funding award may, in some cases, vary from those described above.)

NIJ may elect to fund applications submitted under this FY 2023 solicitation in future fiscal years, dependent on, among other considerations, the merit of the applications and on the availability of appropriations.

What will not be funded:

- Applications primarily to purchase equipment, materials, or supplies, or to provide direct services. (A budget may include these items if they are necessary to conduct research, development, demonstration, evaluation, or analysis.)
- Applications that are not responsive to the purposes of this specific solicitation.

The applicant should identify within their budget which items, services, etc., will/would be covered by matching sources and explain what type of match will be provided.

Cost Sharing or Matching Requirement

See “Cofunding” paragraph under “Budget and Associated Documentation” in the “Application and Submission Information” section.

Pre-agreement Costs (also known as Pre-award Costs)

See the [OJP Grant Application Resource Guide](#) for information on pre-agreement costs (also known as pre-award costs).

Limitation on Use of Award Funds for Employee Compensation: Waiver

See the [OJP Grant Application Resource Guide](#) for information on the Limitation on Use of Award Funds for Employee Compensation; Waiver.

Prior Approval, Planning, and Reporting of Conference/Meeting/Training Costs

See the [OJP Grant Application Resource Guide](#) for information on Prior Approval, Planning, and Reporting of Conference/Meeting/Training Costs.

Costs Associated with Language Assistance (if applicable)

See the [OJP Grant Application Resource Guide](#) for information on Costs Associated with Language Assistance.

Anticipated Number of Awards

Total number of awards NIJ expects to make to be determined by the number of applications received and their merit.

Anticipated Maximum Dollar Amount of Awards

Maximum dollar amount for each award to be determined by the requirements of the research proposed in grants selected for award. Applicants are encouraged to propose budgets that match the research activities proposed, up to the full dollar amount anticipated to be awarded under this solicitation.

Period of Performance Duration

To be determined by the period of performance of awarded applications. Successful applicants will be expected to complete the work proposed within a five-year period of performance.

Eligibility Information

For eligibility information, see the solicitation cover page.

For information on cost sharing or match requirements, see the “Federal Award Information” section.

For the purposes of this solicitation, “state” means any state of the United States, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, Guam, American Samoa, and the Commonwealth of the Northern Mariana Islands.

Foreign governments, foreign organizations, and foreign colleges and universities are not eligible to apply. Federal agencies are eligible to apply. (Any award made to a federal agency will be made as an inter-agency reimbursable agreement.)

Notice regarding law enforcement agencies: State, local, and university or college law enforcement agencies must be certified by an approved independent credentialing body or have started the certification process to be eligible for FY 2023 DOJ discretionary grant funding. To become certified, the law enforcement agency must meet two mandatory conditions: (1) the agency's use-of-force policies adhere to all applicable federal, state, and local laws, and (2) the agency's use-of-force policies prohibit chokeholds except in situations where use of deadly force is allowed by law. The certification requirement also applies to law enforcement agencies receiving DOJ discretionary grant funding through a subaward. For detailed information on this certification requirement, please visit <https://cops.usdoj.gov/SafePolicingEO> to access the Standards for Certification on Safe Policing for Safe Communities, the Implementation Fact Sheet, and the List of Designated Independent Credentialing Bodies.

All recipients and subrecipients (including any for-profit organization) must forgo any profit or management fee.

Application and Submission Information

Content of Application Submission

The following application elements **must** be included in the application to meet the basic minimum requirements to advance to peer review and receive consideration for funding:

- Proposal Narrative
- Budget Web-Based Form (The web-based form includes the budget details and the budget narrative.)
- Curriculum Vitae/Resumes for Key Personnel. (For purposes of this solicitation, "key personnel" means the principal investigator, and any and all co-principal and co-investigators.)

If NIJ determines that an application does not include these elements, it will neither proceed to peer review, nor receive further consideration.

The SF-424 must be submitted in Grants.gov. It is a required standard form used as a cover sheet for submission of pre-applications, applications, and related information. See the [OJP Grant Application Resource Guide](#) for additional information on completing the SF-424.

In Section 8F of the SF-424, please include the name and contact information of the individual **who will complete the application in JustGrants**. JustGrants will use this information (*email address*) to assign the application to this user in JustGrants.

Intergovernmental Review: This solicitation ("funding opportunity") is **not** subject to [Executive Order \(E.O.\) 12372](#). (In completing the SF-424, an applicant is to answer question 19 by selecting "Program is not covered by E.O. 12372.")

Standard Applicant Information (JustGrants 424 and General Agency Information)

The "Standard Applicant Information" section of the JustGrants application is pre-populated with the SF-424 data submitted in Grants.gov. The applicant will need to review the Standard Applicant Information in JustGrants and make edits as needed. Within this section, the applicant will need to add ZIP codes for areas affected by the project; confirm their Authorized Representative; and verify and confirm the organization's unique entity identifier, legal name, and address.

Proposal Abstract

A Proposal Abstract (no more than 400 words) summarizing the proposed project — including its purpose, primary activities, expected outcomes, the service area, intended beneficiaries, and subrecipients (if known) — must be completed in the JustGrants web-based form. This abstract should be in paragraph form without bullets or tables, written in the third person, and exclude personally identifiable information. Abstracts will be made publicly available on the OJP and USASpending.gov websites if the project is awarded. See the [OJP Grant Application Resource Guide](#) for an example of a proposal abstract.

Proposal Narrative

The Proposal Narrative should be submitted as an attachment in JustGrants. The attached document should be double-spaced, using a standard 12-point font; have no less than 1-inch margins; and should not exceed 30 numbered pages. Pages should be numbered and submitted as an attachment. If the Proposal Narrative fails to comply with these length restrictions, NIJ may consider such noncompliance in peer review and in the final award decision.

The Proposal Narrative should include the following sections:

a. Title Page (not counted against the proposal narrative page limit)

The title page should include:

- Project title.
- Submission date.
- Funding opportunity number.
- Principal Investigator (and any co-principal investigators).
- Unique author identifier (e.g., ORCID, ResearcherID, Scopus Author ID), if available.
- Key words, including science focus areas.
- Contact information (that is, name, address, telephone number, and e-mail address) for both the applicant and the principal investigator.

b. Resubmit Response (if applicable) (not counted against the proposal narrative page limit.)

If an applicant is resubmitting an application presented previously to NIJ, but not funded, the applicant should indicate this. A statement should be provided, no more than two pages, addressing: (1) the title, submission date, and NIJ-assigned application number of the previous application, and (2) a brief summary of revisions to the application, including responses to previous feedback received from NIJ.

c. Table of Contents and Figures (not counted against the proposal narrative page limit)

d. Main Body

1. Statement of the Problem

The statement of the problem should address the need for research in this area. Applicants should discuss current gaps in data, research, and knowledge, including those for particular justice sectors, for certain populations, and to answer questions relevant to current policy and practice needs and public interests. It is not uncommon for multiple problems to exist simultaneously (for example, there may be a criminal justice problem affecting public safety, a current technical challenge/need identified by forensic practitioners, as well as a scientific/technology gap between the current state of the art and a desired solution) and applicants should discuss each of these clearly and justify the importance of the separate issues. As part of this discussion, applicants should present a review of previous literature and discuss previous research related to these problems.

2. Project Design and Implementation

Applicants should provide a detailed description of the strategies to implement this research project and address the research questions. Design elements should follow directly from the research project's goals and objectives and address the program-specific information noted in the solicitation. Applicants should describe the research methodology and analysis plan in detail and demonstrate the validity and usefulness of the data they will collect. Applicants should consider the rigor and soundness of the methodology and analytical and technical approaches for the proposed research and address the feasibility of the proposed project and potential challenges or problems in carrying out the activities.

3. Potential Impact

Applicants should describe the potential impact of the research and how it may inform or improve criminal or juvenile justice-related policy, practice, or theory in the United States. The applicant should include a discussion of the proposed dissemination plan to produce scholarly products and to make information available to broader interested audiences, such as criminal justice practitioners or policymakers.

4. Capabilities and Competencies

This section should describe the experience and capability of the applicant organization, key staff, and any proposed subgrantees (including consultants) that the applicant will use to implement and manage this effort and the federal funds under this award, highlighting any previous experience implementing projects of similar scope, design, and magnitude. Applicants should address:

- Experience and capacity to work with the proposed data sources in the conduct of similar research efforts.
- Experience and capacity to design and implement rigorous research and data analysis projects.
- Experience producing and disseminating meaningful deliverables.

Applicants should also outline the management plan and organization that connects to the goals and objectives of the project. Among other factors, that plan should include a description of the anticipated level of effort of key personnel.

5. Appendices (not counted against the proposal narrative page limit) include:

- The project management plan.
- If the application (including the budget) identifies any proposed non-competitive agreements that are or may be considered procurement "contracts" (rather than subawards), for purposes of federal grants administrative requirements, the applicant also must list the entities with which the applicant proposes to contract.
- List of other agencies, organizations, or funding sources to which this application has been submitted (if applicable).

6. Plan for Collecting the Data Required for this Solicitation's Performance Measures

Note: An applicant is not required to submit performance data with the application. Rather, performance measure information is included as a notification that award recipients will be required to submit performance data as part of each award's reporting requirements. Some measures are presented as examples, while others are the exact measures that every recipient will be expected to address.

OJP will require each award recipient to submit regular performance data that show the completed work's results. The performance data directly relate to the goals, objectives, and deliverables identified in the "Goals, Objectives, and Deliverables" discussion. Applicants can visit OJP's

performance measurement page at www.ojp.gov/performance for an overview of performance measurement activities at OJP.

A list of performance measure questions for this program can be found in the 'Performance Measures' section below.

NIJ will require award recipients to submit performance measure data in quarterly financial reports, semi-annual performance reports, and the final research report and separately submit a semi-annual performance report in JustGrants. NIJ will provide further guidance on the post-award submission process if the applicant is selected for award.

Goal, Objective and Deliverables

The applicant will submit the project's goals, objectives, deliverables and timeline in the JustGrants web-based form. The projected fiscal year and quarter the objectives and deliverables will be completed is also entered into the form. Please refer to the [Application Submission Job Aid](#) for step-by-step directions.

Goals. The applicant should describe the project's intent to change, reduce, or eliminate the problem noted in the previous section and outline the project's goals.

Program Objectives. The applicant should explain how the program will accomplish its goals. Objectives are specific, quantifiable statements of the project's desired results. They should be measurable and clearly linked to the goal.

Deliverables. Project deliverables refer to outputs—tangible or intangible—that are submitted within the scope of a project.

Budget and Associated Documentation

Budget Worksheet and Budget Narrative (Web-based Form)

The applicant will complete the JustGrants web-based budget form. For additional information, see the [OJP Grant Application Resource Guide](#) and the [Complete the Application in JustGrants – Budget](#) training.

The following paragraph (on "Cofunding") expressly modifies the "Cost Sharing or Matching Requirement" provisions in the [OJP Grant Application Resource Guide](#). The applicant is to follow the guidance in the following paragraph instead of the guidance stated under the "Cost Sharing or Matching Requirement" heading in the OJP Grant Application Resource Guide.

Cofunding: An award made by NIJ under this solicitation may account for up to 100 percent of the total cost of the project. The application should indicate whether it is feasible for the applicant to contribute cash, facilities, or services as non-federal support for the project. The application should identify generally any such contributions that the applicant expects to make and the proposed budget should indicate in detail which items, if any, will be supported with non-federal contributions.

For additional match information, see the "Cost Sharing or Match Requirement" section under Federal Award Information.

If a successful application proposes a voluntary match amount, and OJP approves the budget, the total match amount incorporated into the approved budget becomes mandatory and subject to audit.

Pre-agreement Costs (also known as Pre-award Costs)

See the section on Costs Requiring Prior Approval in the [DOJ Grants Financial Guide Post Award Requirements](#) for more information.

Indirect Cost Rate Agreement (if applicable)

If applicable, the applicant will upload their indirect cost rate agreement as an attachment in JustGrants. See the [OJP Grant Application Resource Guide](#) for more information on indirect costs.

Consultant Rate

See the [DOJ Grants Financial Guide](#) for information on the consultant rates which require prior approval from OJP.

Employee Compensation Waiver

See the [OJP Grant Application Resource Guide](#) for information on the Limitation on Use of Award Funds for Employee Compensation for Awards over \$250,000; Waiver.

The applicant will download the questionnaire, complete it, and upload it as an attachment in JustGrants. See the [OJP Grant Application Resource Guide](#) for the link to the questionnaire and additional information.

Disclosure of Process Related to Executive Compensation

This solicitation expressly modifies the OJP Grant Application Resource Guide by not incorporating its "Disclosure of Process Related to Executive Compensation" provisions. Applicants to this solicitation are not required to provide this disclosure.

Additional Application Components

The applicant will attach the additional requested documentation in JustGrants.

Curriculum Vitae or Resumes

Provide curriculum vitae or resume of the principal investigator and any and all co-principal and co-investigators. In addition, curriculum vitae, resume, or biographical sketches of all other individuals (regardless of "investigator" status) who will be significantly involved in substantive aspects of the proposed project (including, for example, individuals such as statisticians used to conduct proposed data analysis).

Tribal Authorizing Resolution

An application in response to this solicitation may require inclusion of tribal authorizing documentation as an attachment. If applicable, the applicant will upload the tribal authorizing documentation as an attachment in JustGrants. See the [OJP Grant Application Resource Guide](#) for information on tribal authorizing resolutions.

Proposed project timeline and expected milestones.

Letters of Support

Letters of cooperation/support or administrative agreements from organizations collaborating in the project, such as law enforcement and correctional agencies (if applicable).

Research and Evaluation Independence and Integrity Statement

If an application proposes research (including research and development) and/or evaluation, the applicant must demonstrate research/evaluation independence and integrity, including appropriate safeguards, before it may receive award funds. The applicant will upload documentation of its research and evaluation independence and integrity as an attachment in JustGrants. For additional information, see the [OJP Grant Application Resource Guide](#).

Bibliography/reference

Provide a bibliography of any references cited in the Proposal Narrative.

Any tools/instruments, questionnaires, tables/chart/graphs, or maps

List of Individuals in the Application

To assist OJP in assessing actual or apparent conflicts of interest (including such conflicts on the part of prospective reviewers of the application), provide a complete list of the individuals named or otherwise identified anywhere in the application (including in the budget or in any other attachment) who will or may work (or advise or consult) on the proposed research, development, or evaluation project. Applicants should use the “[Proposed Project Staff, Affiliation, and Roles](#)” form available on the NIJ webpage to prepare this list.

Human Subjects Protection

Human Subjects Protection paperwork as a separate attachment (documentation and forms related to Institutional Review Board [IRB] review). See <https://nij.ojp.gov/funding/human-subjects-protection>. **Note:** Final IRB approval is not required at the time an application is submitted.

Privacy Certificate as a separate file (for further guidance go to <https://nij.ojp.gov/funding/confidentiality-and-privacy-protections> and <https://nij.ojp.gov/funding/model-privacy-certificate>).

Request to Use Incentives or Stipends

Applicants proposing to use incentives or stipends payments as part of their research project design, must submit an incentive or stipend approval request, as a separate document, according to the requirements set forth at <https://nij.ojp.gov/funding/participant-support-costs-and-incentives-social-science-research>.

Consortium/Contractual Arrangements

Data Archiving Plan

Applicants should anticipate that NIJ will require, through special award conditions, that data sets

resulting in whole or in part from projects funded under this solicitation be submitted for archiving with the NACJD. See <https://nij.ojp.gov/funding/data-archiving>.

Applications should include as a separate file a brief plan — labeled “Data Archiving Plan” — to comply with data archiving requirements. The plan should provide brief details about proposed data management and archiving, including submission to NIJ (through NACJD) of **all files and documentation** necessary to allow for future efforts by others to reproduce the project’s findings and/or to extend the scientific value of the data set through secondary analysis. Pertinent files and documentation include, among other things, qualitative and quantitative data produced, instrumentation and data collection forms, codebook (s), any specialized programming code necessary to reproduce all constructed measures and the original data analysis, description of necessary de-identification procedures, and (when required) a copy of the privacy certificate and informed consent protocols.

The plan should be one or two pages in length and include the level of effort associated with meeting archiving requirements.

Note that recipients are strongly encouraged to submit required data sets at least 90 days before the end of the period of performance.

The applicant will address the following disclosures and assurances.

See the [OJP Grant Application Resource Guide](#) for additional information.

How to Apply

Registration: Before submitting an application, all applicants must register with the System for Award Management (SAM). You must renew and validate your registration every 12 months. If you do not renew your SAM registration, it will expire. An expired registration can delay or prevent application submission in Grants.gov and JustGrants. Registration and renewal can take up to 10 business days to complete.

Submission: Applications must be submitted to DOJ electronically through a two-step process via Grants.gov and JustGrants.

Step 1: After registering with SAM, the applicant must submit the **SF-424** and **SF-LLL** in Grants.gov at <https://www.grants.gov/web/grants/register.html> by the Grants.gov deadline.

Submit the SF-424 and SF-LLL as early as possible, but no later than 48 hours before the Grants.gov deadline. If an applicant fails to submit in Grants.gov, they will be unable to apply in JustGrants.

Step 2: The applicant must then submit the **full application**, including attachments, in JustGrants at [JustGrants.usdoj.gov](https://www.justgrants.usdoj.gov) by the JustGrants deadline.

Within 24 hours after receipt of confirmation emails from Grants.gov, the individual in Section 8F of the SF-424 will receive an email from DIAMD-NoReply@usdoj.gov with instructions on how to create a JustGrants account. Register the Entity Administrator and the Application Submitter with JustGrants as early as possible but no later than 48-72 hours before the JustGrants deadline. Once registered in JustGrants, the Application Submitter will receive an emailed link to complete the rest of the application in JustGrants. The Entity Administrator also will need to log into JustGrants to review and invite the applicant's Authorized Representative(s) before an application can be submitted.

Submit the complete application package in JustGrants at least 24 – 48 hours prior to the JustGrants deadline. Some of the application components will be entered directly into JustGrants, and others will require uploading attached documents. Therefore, applicants will need to allow ample time before the JustGrants deadline to prepare each component. Applicants may save their progress in the system and revise the application as needed prior to hitting the Submit button at the end of the application in JustGrants.

For additional information, see the "How to Apply" section in the [OJP Grant Application Resource Guide](#) and the [DOJ Application Submission Checklist](#).

Submission Dates and Time

The **SF-424** and the **SF-LLL** must be submitted in Grants.gov by 11:59 p.m. eastern time on April 10, 2023.

The **full application** must be submitted in JustGrants by 8:59 p.m. eastern time on April 24, 2023.

OJP urges applicants to submit their Grants.gov and JustGrants submissions prior to the due dates with sufficient time to correct any errors and resubmit by the submission deadlines if a rejection notification is received. To be considered timely, the **full application** must be submitted in JustGrants by the JustGrants application deadline. Failure to begin the SAM.gov, Grants.gov, or JustGrants registration process in sufficient time (i.e., waiting until the date identified in this solicitation) is not an acceptable reason for late submission.

Experiencing Unforeseen Technical Issues Preventing Submission of an Application

OJP will only consider requests to submit an application after the deadline when the applicant can document that a technical issue with a government system prevented application submission.

If an applicant misses a deadline due to unforeseen technical issues with SAM.gov, Grants.gov, or JustGrants, the applicant may request a waiver to submit an application after the deadline. However, the waiver request will not be considered unless it includes a tracking number generated when the applicant contacts the applicable service desks to report technical difficulties. Tracking numbers are generated automatically when an applicant emails the applicable service desks; and for this reason applicants are encouraged to email the appropriate service desk, even if they also intend to call the service desk for phone support. Experiencing wait times for phone support does not relieve the applicant of the responsibility of getting a tracking number.

An applicant experiencing technical difficulties must contact the associated service desk indicated below to report the technical issue and receive a tracking number:

- SAM.gov - contact the [SAM Help Desk \(Federal Service Desk\)](#), Monday – Friday from 8 a.m. to 8 p.m. ET at 866-606-8220.
- Grants.gov - contact the [Grants.gov Customer Support Hotline](#), 24 hours a day, 7 days a week, except on federal holidays, at 800-518-4726, 606-545-5035, or support@grants.gov.
- JustGrants - contact the JustGrants Service Desk at JustGrants.Support@usdoj.gov or 833-872-5175, Monday – Friday from 7 a.m. to 9 p.m. ET and Saturday, Sunday, and Federal holidays from 9 a.m. to 5 p.m. ET.

If an applicant has technical issues with SAM.gov or Grants.gov, the applicant must contact the OJP Response Center at grants@ncjrs.gov within **24 hours of the Grants.gov deadline** to request approval to submit after the deadline.

If an applicant has technical issues with JustGrants that prevent application submission by the deadline, the applicant must contact the OJP Response Center at grants@ncjrs.gov within **24 hours of the JustGrants deadline** to request approval to submit after the deadline.

Waiver requests sent to the OJP Response Center must -

- describe the technical difficulties experienced,
- include a timeline of the applicant's submission efforts (e.g., date and time the error occurred, date and time of actions taken to resolve the issue and resubmit; and date and time support representatives responded),
- include an attachment of the complete grant application and all the required documentation and materials,
- include the applicant's Unique Entity Identifier (UEI), and
- include any SAM.gov, Grants.gov, and JustGrants Service Desk tracking numbers documenting the technical issue.

OJP will review each waiver request and the required supporting documentation and notify the applicant whether the request for late submission has been approved or denied. An applicant who does not provide documentation of a technical issue or who does not submit a waiver request within the required time period will be denied.

For more details on the waiver process, OJP encourages applicants to review the "Experiencing Unforeseen Technical Issues" section in the [OJP Grant Application Resource Guide](#).

Other Review Criteria/Factors

Other important considerations for NIJ include geographic diversity, strategic priorities (specifically including, but not limited to, those priority areas already mentioned, if applicable), available funding, past performance, and the extent to which the Budget Web-Based Form accurately explains project costs that are reasonable, necessary, and otherwise allowable under federal law and applicable federal cost principles.

Review Process

Applications submitted under this solicitation that meet the basic minimum requirements will be evaluated for technical merit by a peer review panel(s) in accordance with OJP peer review policy and procedures using the review criteria listed above.

OJP screens applications to ensure they meet the basic minimum requirements prior to conducting the peer review. Although specific requirements may vary, the following are common requirements applicable to all OJP solicitations:

- The application must be submitted by an eligible type of applicant.
- The application must request funding within programmatic funding constraints (if applicable).
- The application must be responsive to the scope of the solicitation.
- The application must include all items necessary to meet the basic minimum requirements.

Pursuant to the Part 200 Uniform Requirements, before award decisions are made, OJP also reviews information related to the degree of risk posed by the applicant entity. Among other things to help assess whether an applicant with one or more prior federal awards has a satisfactory record of performance, integrity, and business ethics, OJP checks whether the applicant entity is listed in SAM as excluded from receiving a federal award.

In addition, if OJP anticipates that an award will exceed \$250,000 in federal funds, OJP also must review and consider any information about the applicant entity that appears in the non-public segment of the integrity and performance system accessible through SAM (currently, the Federal Awardee Performance and Integrity Information System, FAPIIS).

Important Note on FAPIIS: An applicant may review and comment on any information about its organization that currently appears in FAPIIS and was entered by a federal awarding agency. OJP will consider such comments by the applicant, in addition to the other information in FAPIIS, in its assessment of the risk posed by the applicant entity.

All final award decisions will be made by the Director of the National Institute of Justice (NIJ), who may take into account not only peer review ratings and NIJ recommendations, but also other factors as indicated in this section.

For additional information on these legal requirements, see the "Administrative, National Policy, and Other Legal Requirements" section in the [OJP Grant Application Resource Guide](#).
