To become certified, the law enforcement agency must meet two mandatory conditions: (1) the agency's use of force policies adhere to all applicable federal, state, and local laws; and (2) the agency's use of force policies prohibit chokeholds except in situations where use of deadly force is allowed by law. The certification requirement also applies to law enforcement agencies receiving DOJ discretionary grant funding through a subaward. # Program Description

## Overview

With this solicitation, NIJ, in collaboration with the Office of Juvenile Justice and Delinquency Prevention (OJJDP), seeks proposals to support the National Juvenile Court Data Archive (the Archive). The Archive collects, maintains, and makes accessible the nation's primary source of detailed information on juvenile court case processing of delinquency and status offense cases.

In the case of partnerships that will involve the use of federal award funds by multiple partnering agencies to carry out the proposed project, only one entity/partnering agency may be the applicant (as is the case with any application submitted in response to this solicitation); any others must be proposed as subrecipients.

## Statutory Authority

Any awards under this solicitation would be made under statutory authority provided by a full-year appropriations act for FY 2021. As of the writing of this solicitation, the Department of Justice is operating under a short-term "Continuing Resolution;" no full-year appropriation for the Department has been enacted for FY 2021.

## Specific Information

Following the passage of the Juvenile Justice and Delinquency Prevention Act of 1974, OJJDP assumed responsibility for the collection and reporting of juvenile court statistics. From 1975 to the present, the Archive has collected, processed, and analyzed millions of juvenile court case records and aggregate case counts.

The Archive, managed by NIJ, generates annual estimates of juvenile court caseloads and processing decisions based on data contributions from juvenile courts across the nation. The most recent *Juvenile Court Statistics* report is based on analyses of data from more than 2,500 juvenile courts with jurisdiction over 87 percent of the U.S. juvenile population in 2018.<sup>1</sup> In addition, the Archive provides juvenile justice researchers with the ability to access automated juvenile court data sets, study a wide range of national and subnational juvenile justice issues, monitor trends in juvenile offending, and identify emerging issues.

The Archive provides empirical information on the nation's juvenile courts and juvenile offenders (including the most serious offense charged, level of court processing, and sanctions ordered) to support federal, state, and local policy and program development as well as a wide range of basic, applied, and legal research.

NIJ expects applicants to describe their plan to meet the core activities of the Archive:

- **Juvenile court case data collection and processing.** State and local agencies voluntarily contribute case-level data and court-level aggregate statistics to the Archive. A key element of the Archive's success is to develop and maintain strong relationships with data suppliers and reduce respondent burden. Applicants should explain in detail their strategy to build and maintain relationships with data suppliers to collect submissions of automated case-level data sets extracted from various information systems and describe how they will combine and standardize these unique data sets to produce national estimates of juvenile court activity. Applicants should include information about their plans to:
  - Request and collect data from state and local agencies, enter into data sharing agreements (as necessary), and increase the number of participating agencies (see Juvenile court case data quality improvement below).
  - Review and analyze the quality of data submissions and follow up with data suppliers, as necessary.

- Document and prepare raw data files for submission into the Archive.
- Standardize data files and develop national estimates.
- Prepare and maintain backups of all archived files.
- Protect privacy and human subjects.

NIJ will provide the successful applicant with key foundational materials related to the Archive to assist in beginning the project activities, including methodological documentation on previous procedures used to generate national estimates and all public Archive data files. However, the state-level raw data sets housed in the Archive are the property of the court or state agency that originally collected and contributed their data for use in this national reporting effort. Consequently, the successful applicant must document their ability to work with individual court and state agencies to gain permission to access state data-files from previous years and to set up data sharing agreements for future collections.

If selected for award, the successful applicant will be expected to have a formal agreement in place with partnering agencies by March 1, 2022. That formal agreement must include a provision to meet the data archiving requirements of the award. Specifically, data sharing agreements must include the partnering agency's acknowledgement that study-level documentation developed through this project will be archived by the grant recipient in the National Archive of Criminal Justice Data (NACJD) at the conclusion of the award (please see "Goals, Objectives, and Deliverables," below).

Applicants should describe their plan for the successful transition of the project between awards and account for a transition period in their project timeline and budget. A new applicant should anticipate that a transition may occur at the beginning and end of their project period. An incumbent applicant should anticipate that a transition may occur at the end of their project period.

- **Juvenile court data use and dissemination.** NIJ and OJJDP seek to promote knowledge and use of the archived data to assist researchers, policymakers, and the general public in their understanding of U.S. juvenile court processing and youth whose cases these courts handle. Consequently, applicants should discuss how they will ensure dissemination of the data to a widespread audience and encourage the use of the data for secondary analysis. Applicants should include information about their plans to:
  - Produce the annual [Juvenile Court Statistics](#) report for three consecutive years, with an emphasis on reducing the lag time between the data-reporting year and the release date for this report.
  - Draft bulletins, fact sheets, and [data snapshots](#) using data from the Archive for consideration of publication by NIJ and OJJDP.
  - Prepare and transfer data for use in [OJJDP's Statistical Briefing Book](#). This includes providing data files to support the online data analysis tools: [Juvenile Court Statistics](#) and [State and County Juvenile Court Case Counts](#), with an emphasis on reducing the lag time between the data reporting year and online data release.
  - Respond to researcher requests for state-level data files ensuring that all

requirements and preconditions have been satisfied, including receipt of Internal Review Board approvals and permissions from the original data supplier.

- Prepare responses to periodic information requests at the request of NIJ on behalf of policymakers, the media, and the public for juvenile justice data.
- **Juvenile court case data-quality improvement.** Increasing the number of jurisdictions that provide annual data to the Archive and improving the quality and timeliness of the data submitted ultimately leads to better national estimates and a more accurate representation of the nation's juvenile courts. As a result, NIJ and OJJDP place a significant emphasis on activities that will assist local jurisdictions in the development, improvement, and expansion of their juvenile court information systems. Applicants should include information about their plans to:
  - Improve and refine the Archive's data processing procedures for standardizing data and producing national estimates.
  - Monitor nonreporting jurisdictions and conduct outreach, as appropriate, to encourage their participation.
  - Advance statistical analyses of nonreporting jurisdictions to more clearly determine potential for bias in the production of national estimates.
  - Provide technical assistance to agencies to improve their court information systems.
  - Plan and conduct efforts to increase the level of interaction between Archive staff and data suppliers to provide technical assistance, training, support, networking opportunities, and peer-to-peer sharing of innovative data collection, management, and analysis.

## **Goals, Objectives, Deliverables, and Timeline**

### **Goals**

The goal of this solicitation is to support the National Juvenile Court Data Archive (the Archive).

### **Objectives**

To provide empirical information on the nation's juvenile courts and juvenile offenders (including the most serious offense charged, level of court processing, and sanctions ordered) to support federal, state, and local policy and program development as well as a wide range of basic, applied, and legal research.

### **Deliverables**

The Archive's primary goal is to collect and disseminate national information and statistics about delinquency and status offense cases handled by juvenile courts. The secondary goals are to continue to expand the coverage of reporting juvenile court jurisdictions, and to increase the quality and timeliness of the data obtained.

Final Research Report. Any recipient of an award under this solicitation will be expected to submit a final research report. Additional information on the final research report requirement for the solicitation is posted on NIJ's webpage.

Annual Juvenile Court Statistics Report. Any recipient of an award under this solicitation will be expected to produce, for three consecutive years, a detailed report presenting national estimates of delinquency cases, delinquency case processing, status offense cases, and status offense case processing, and the methodology used.

Other publications. Any recipient of an award under this solicitation will be expected to draft bulletins, fact sheets, and [data snapshots](#) using data from the Archive for consideration of publication by NIJ and OJJDP.

Data files. Any recipient of an award under this solicitation will be expected to provide data files for use in OJJDP's [Statistical Briefing Book](#), including supporting the online data analysis tools: [Juvenile Court Statistics](#), and [State and County Juvenile Court Case Counts](#).

Required Data Sets and Associated Files and Documentation. Any recipient of an award under this solicitation will be expected to submit to the National Archive of Criminal Justice Data (NACJD) study-related documentation, including, but not limited to, a user guide or similar document with step-by-step instructions for requesting and accessing the state-level raw data sets originally contributed to, and any new data sets resulting from the project. This documentation, along with a description of the study, will appear on the NACJD website to inform future efforts by others to reproduce the project's findings and/or to extend the scientific value of the data set through secondary analysis.

In addition to these deliverables (and the required reports and data on performance measures), NIJ expects scholarly products to result from each award under this solicitation, taking the form of one or more published, peer-reviewed, scientific journal articles, and/or (if appropriate) law review journal articles, book chapter(s) or book(s) in the academic press, technological prototypes, patented inventions, or similar scientific products.

The Goals, Objectives, and Deliverables are directly related to the performance measures that demonstrate the results of the work completed, as discussed under Application and Submission Information.

### **Clarifications**

## **Continuation Funding Intent**

NIJ may, in certain cases, provide additional funding in future years to awards made under this solicitation, through continuation awards. NIJ will consider, among other factors, NIJ's strategic priorities, a recipient's overall management of the award, and progress of award-funded work, when making continuation-award decisions.

## **Availability of Funds**

All awards are subject to the availability of appropriated funds and to any modifications or additional requirements that may be imposed by law.

## **Funding Instrument Type**

Grant

## **Award Type**

Initial

## **Is Match Required**

No

## **Financial Management and System of Internal Controls**

Award recipients and subrecipients (including recipients or subrecipients that are pass-through entities) must, as described in the Part 200 Uniform Requirements as set out at 2 C.F.R. 200.303, comply with standards for financial and program management. The "Part 200 Uniform Requirements" means the DOJ regulation at 2 C.F.R. Part 2800, which adopts (with certain modifications) the provisions of 2 C.F.R. Part 200. See [OJP Grant Application Resource Guide](#) for additional information.

## **Budget Information**

If the applicant is proposing a project that reasonably could be conducted in discrete phases, with each phase resulting in completion of one or more significant, defined milestones, then NIJ strongly recommends that the applicant structure the application — specifically including the narrative, expected scholarly products, timelines/milestones, and budget detail worksheet and budget narrative — to clearly define each phase. (This is particularly the case if the applicant proposes a project that will exceed — in cost or the length of the period of performance — the amount or length of time anticipated for an individual award (or awards) under this solicitation.) Given limitations on the availability to NIJ of funds for awards for research, development, and evaluation, this information will assist NIJ in considering whether partial funding of applications would be productive. (If, in FY 2021, NIJ elects to fund only certain phases of a proposed project, the expected scholarly products from the partial-funding award may, in some cases, vary from those described above.)

NIJ may elect to fund applications submitted under this FY 2021 solicitation in future fiscal years, dependent on, among other considerations, the merit of the applications and on the availability of appropriations.

What will not be funded:

- Applications primarily to purchase equipment, materials, or supplies. (A budget may include these items if they are necessary to conduct research, development, demonstration, evaluation, or analysis.)

- Applications that are not responsive to the purposes of this specific solicitation.

### **Cost Sharing or Matching Requirement**

See “Cofunding” paragraph under item 5 (“Budget and Associated Documentation”) under “Content of Application Submission” in Application and Submission Information.

### **Pre-agreement Costs (also known as Pre-award Costs)**

See the [OJP Grant Application Resource Guide](#) information on Pre-agreement Costs (also known as Pre-award Costs).

### **Limitation on Use of Award Funds for Employee Compensation: Waiver**

See the [OJP Grant Application Resource Guide](#) information on Limitation on Use of Award Funds for Employee Compensation: Waiver.

### **Prior Approval, Planning, and Reporting of Conference/Meeting/Training Costs**

See the [OJP Grant Application Resource Guide](#) for information on Prior Approval, Planning, and Reporting of Conference/Meeting/Training Costs.

### **Costs Associated with Language Assistance (if applicable)**

See the [OJP Grant Application Resource Guide](#) for information on Costs Associated with Language Assistance.

### **Period of performance duration**

To be determined by the period of performance of awarded applications. Successful applicants will be expected to complete the work proposed within a five-year period of performance.

### **Eligibility Information**

For eligibility information, see the title page.

For information on cost sharing or match requirements, see “Content of Application Submission” in Application and Submission Information.

### **Content of Application Submission**

The following application elements MUST be included in the application submission for an application to meet the basic minimum requirements (BMR) to advance to peer review and receive consideration for funding:

- Program Narrative.

- Budget Worksheet and Budget Narrative (Web-based form).
- Curriculum Vitae/Resumes for Key Personnel. (Curriculum Vitae for key personnel (For purposes of this solicitation, “key personnel” means the principal investigator, and any and all co-principal investigators.)

See the “Application Elements and Formatting Instructions” section of the [OJP Grant Application Resource Guide](#) for information on what happens to an application that does not contain all the specified elements or that is nonresponsive to the scope of the solicitation.

## Information to Complete the Application for Federal Assistance (SF-424)

The SF-424 will be submitted in Grants.gov. The SF-424 is a required standard form used as a cover sheet for the submission of pre-applications, applications, and related information. See the [OJP Grant Application Resource Guide](#) for additional information on completing the SF-424.

**Intergovernmental Review:** This solicitation (“funding opportunity”) is **not** subject to [Executive Order 12372](#). (In completing the SF-424, an applicant is to answer question 19 by selecting the response that the “Program is not covered by E.O. 12372.”)

## Standard Applicant Information (JustGrants 424 and General Agency Information)

The Standard Applicant Information section of the JustGrants application is pre-populated with the SF-424 data submitted in Grants.gov. Applicants will need to review the Standard Applicant Information in JustGrants and make edits as needed. Within this section, applicants will need to: add zip codes for areas affected by the project, confirm their Authorized Representative, and verify the organization’s legal name and address.

## Proposal Abstract

A proposal abstract (no more than 400 words) summarizing the proposed project including primary activities, products and deliverables, the service area, and who will benefit from the proposed project, will be completed in the JustGrants Web-based form.

## Proposal Narrative

The program narrative should be submitted as an attachment in JustGrants. The attached document should be double-spaced, using a standard 12-point Times New Roman font; have no less than 1-inch margins; and should not exceed 30 pages. Pages should be numbered and submitted as an attachment. If the program narrative fails to comply with these length-related restrictions, NIJ may negatively consider such noncompliance in peer review and in final award decisions.

The following sections must be included as part of the program narrative:

### a. Title Page (not counted against the program narrative page limit)

The title page should include:

- Project title.
- Submission date.
- Funding opportunity number.
- Principal Investigator (and any co-principal investigators).
- Unique author identifier (e.g., [ORCID](#), [ResearcherID](#), [Scopus Author ID](#)), if available.
- Key words, including science focus areas.
- Contact information (that is, name, address, telephone number, and e-mail address) for both the applicant and the principal investigator.

**b. Table of Contents and Figures** (not counted against the program narrative page limit)

**c. Main Body**

**1. Statement of the Problem.**

The statement of the problem should address the need for research in this area. Applicants should discuss current gaps in data, research, and knowledge, including those for particular justice sectors, for certain populations, and to answer questions relevant to current policy and practice needs and public interests. It is not uncommon for multiple problems to exist simultaneously (for example, there may be a criminal justice problem affecting public safety, a current technical challenge/need identified by forensic practitioners, as well as a scientific/technology gap between the current state of the art and a desired solution) and applicants should discuss each of these clearly and justify the importance of the separate issues. As part of this discussion, applicants should present a review of previous literature and discuss previous research related to these problems.

**2. Project Design and Implementation.**

Applicants should provide a detailed description of the strategies to implement this research project and address the research questions. Design elements should follow directly from the research project's goals and objectives and address the program-specific information noted in the solicitation. Applicants should describe the research methodology and analysis plan in detail and demonstrate the validity and usefulness of the data they will collect. Applicants should consider the rigor and soundness of the methodology and analytical and technical approaches for the proposed research and address the feasibility of the proposed project and potential challenges or problems in carrying out the activities.

**3. Potential Impact.**

Applicants should describe the potential impact of the research and how it may inform or improve criminal or juvenile justice-related policy, practice, or theory in the United States.

**4. Capabilities and Competencies.**

This section should describe the experience and capability of the applicant organization, key staff, and any proposed subgrantees (including consultants) that the applicant will use to implement and manage this effort and the federal funds under this award, highlighting any previous experience implementing projects of similar scope, design, and magnitude. Applicants should address:

- Experience and capacity to work with the proposed data sources in the conduct of similar research efforts.
- Experience and capacity to design and implement rigorous research and data analysis projects.
- Experience producing and disseminating meaningful deliverables.

Applicants should also outline the management plan and organization that connects to the goals and objectives of the project.

**5. Appendices** (not counted against the program narrative page limit) include:

- If the application (including the budget) identifies any proposed non-competitive agreements that are or may be considered procurement "contracts" (rather than subawards), for purposes of federal grants administrative requirements, the applicant also must list the entities with which the applicant proposes to contract.
- List of other agencies, organizations, or funding sources to which this application has been submitted (if applicable).

Note: applicants are **not** required to submit performance data with the application. Rather, performance measures information is included as an alert that successful applicants will be required to submit performance data as part of the reporting requirements under an award.

OJP will require each successful applicant to submit regular performance data that demonstrate the results of the work carried out under the award. The performance data directly relate to the goals, objectives, and deliverables identified on page 8.

A list of performance measure questions for this program can be found on page 20.

Applicants can also visit OJP's performance measurement page at [www.ojp.gov/performance](http://www.ojp.gov/performance) for an overview of performance measurement activities at OJP.

Award recipients will be required to submit performance measure data in quarterly financial reports, semi-annual progress reports, and the Final Research Report. Further guidance on the post-award submission process will be provided, if selected for award.

### **Goals, Objectives, Deliverables, and Timeline**

Applicants will submit the projects goals, objectives, deliverables and timelines in the JustGrants Web-based form. See the [OJP Grant Application Resource Guide](#) for additional information.

### **Budget and Associated Documentation**

Applicants will complete the JustGrants web-based budget form. See the [OJP Grant Application Resource Guide](#) for additional information.

### **Are you going to require the applicant to submit the web-based budget detailed form?**

Yes

### **Budget Worksheet and Budget Narrative (Web-based Form)**

Applicants will complete the JustGrants web-based budget form. See the [OJP Grant Application Resource Guide](#) for additional information.

The following paragraph (on "Cofunding") expressly modifies the "Cost Sharing or Matching Requirement" provisions in the OJP Grant Application Resource Guide. The applicant is to follow the guidance in the following paragraph instead of the guidance stated under the "Cost Sharing or Matching Requirement" heading in the OJP Grant Application Resource Guide.

**Cofunding:** An award made by NIJ under this solicitation may account for up to 100 percent of the total cost of the project. The application should indicate whether it is feasible for the applicant to contribute cash, facilities, or services as non-federal support for the project. The application should identify generally any such contributions that the applicant expects to make and the proposed budget should indicate in detail which items, if any, will be supported with non-federal contributions.

For additional match information, see the "Cost Sharing or Match Requirement" section under Federal Award Information.

If a successful application proposes a voluntary match amount, and OJP approves the budget, the total match amount incorporated into the approved budget becomes mandatory and subject to audit.

### **Indirect Cost Rate Agreement (if applicable)**

Applicants will submit their indirect cost rate agreement by uploading the agreement as an attachment in JustGrants. See the [OJP Grant Application Resource Guide](#) for additional information.

### **Financial Management Questionnaire (including applicant disclosure of high-risk status)**

Applicants will download the questionnaire in JustGrants and submit by uploading the completed questionnaire as an attachment in JustGrants. See the [OJP Grant Application Resource Guide](#) for additional information.

If applicable, applicants will submit a description of the process used to determine compensation by uploading the document as an attachment in JustGrants. See the “Application Attachments” section of the [OJP Grant Application Resource Guide](#) for information.

## **Additional Application Components**

### **Curriculum Vitae or Resumes**

Curriculum vitae or resume of the principal investigator and any and all co-principal investigators. In addition, curriculum vitae, resume, or biographical sketches of all other individuals (regardless of “investigator” status) who will be significantly involved in substantive aspects of the proposed project (including, for example, individuals such as statisticians used to conduct proposed data analysis).

### **Tribal Authorizing Resolution**

If applicable, applicants will submit the Tribal Authorizing Resolution by uploading the resolution as an attachment in JustGrants. - Feasibility of completing the deliverables noted in the solicitation.

3. Capabilities and Competencies (capabilities, demonstrated productivity, and experience of the applicant organization and proposed project staff) (20%)

- Qualifications and experience of proposed project staff (that is, the principal investigator, any and all co-principal investigators, and all other individuals (and organizations) identified in the application (regardless of "investigator" status) who will be significantly involved in substantive aspects of the proposed project).
- Demonstrated ability of the applicant organization to implement the proposed strategies and manage the effort.

#### **b. Additional Review Criteria**

Other important considerations for NIJ include geographic diversity, available funding, past performance, and the extent to which the Budget Worksheet and Budget Narrative (Web-based form) accurately explain project costs that are reasonable, necessary, and otherwise allowable under federal law and applicable federal cost principles.

### **Review Process**

Applications submitted under this solicitation that meet basic minimum requirements, will be evaluated for technical merit by a peer review panel(s) in accordance with OJP peer review policy and procedures using the stated review criteria above.

OJP screens applications to ensure they meet the basic minimum requirements prior to conducting peer review. Although specific requirements may vary, the following are common requirements applicable to all solicitations for funding under OJP programs:

- The application must be submitted by an eligible type of applicant.
- The application must request funding within programmatic funding constraints (if applicable).
- The application must be responsive to the scope of the solicitation.
- The application must include all items necessary to meet the basic minimum requirements.
- The application, if submitted by an applicant that is a DOJ High Risk Grantee, or is designated “high risk” by a federal grant-making agency outside of DOJ, must not have been determined by the NIJ Director to pose a substantial risk of program implementation failure, based on 1) the applicant’s lack of sufficient progress in addressing required corrective actions necessary for removal of the DOJ High Risk Grantee (or non-DOJ high risk) designation, 2) the nature and severity of the issues leading to or accompanying the DOJ High Risk Grantee (or non-DOJ high risk) designation, and/or 3) the applicant’s expected ability to manage grant funds and achieve grant goals and objectives.

Pursuant to the Part 200 Uniform Requirements, before award decisions are made, OJP also reviews information related to the degree of risk posed by the applicant. Among

other things to help assess whether an applicant that has one or more prior federal awards has a satisfactory record with respect to performance, integrity, and business ethics, OJP checks whether the applicant is listed in SAM as excluded from receiving a federal award.

In addition, if OJP anticipates that an award will exceed \$250,000 in federal funds, OJP also must review and consider any information about the applicant that appears in the non-public segment of the integrity and performance system accessible through SAM (currently, the Federal Awardee Performance and Integrity Information System, FAPIIS).

Important note on FAPIIS: An applicant may review and comment on any information about itself that currently appears in FAPIIS and was entered by a federal awarding agency. OJP will consider any such comments by the applicant, in addition to the other information in FAPIIS, in its assessment of the risk posed by the applicant.

All final award decisions will be made by Director of the National Institute of Justice, who may take into account not only peer review ratings and NIJ recommendations, but also other factors as indicated in this section.
